## Tax Rates Lower In 8 County Areas

If you are an owner of property in 41 tax areas in Columbiana County, your taxes for 1963 (payable in 1964) will go up, but in eight other areas taxpayers will get a break with lower rates, according to county Treasurer Vincent C. Judge.

Most of the higher taxes are for variations in debt requirements, along with several renewed levies at original levels, plus several new levies, Auditor Kenneth Bell pointed out.

The eight areas where taxes will be lower include:

Liverpool Township — East Liverpool School District and East Liverpool; Madison Township — Wellsville School District; Middleton Township — East Palestine School District; St. Clair Township — East Liverpool School District; Unity Township—East Palestine City; Yellow Creek—Wellsville School District and Wellsville City.

Salem city and Salem city school district tax rates will be up slightly. The new school district tax rate will be $35.30 for each $1,000 property valuation, which is up 10 cents over the '62 rate, and the city rate will be $36.70, also up 10 cents.

The highest tax rate in the county is Washingtonville at $42, which is up $2.80 per $1,000.

The next highest rates are the lot of Homeworth $39.30 formerly ($36.30); West Branch School District $38.30 35.30 and Lisbon village $38 ($36.70).

**Rates By Tax Districts**

The tax rates printed below for all districts, with 1962 in parenthesis, are based on each $1,000 valuation:

BUTLER TOWNSHIP — United Local School District $32.80 $29.20) West Branch School District $38.30 ($35.30).

CENTER TOWNSHIP — United L.S.D. $30.50 ($26.90) Southern L.S.D. $26.90 ($26.30) Lisbon Exempted School District $33.50 ($32.20) Lisbon Village $38.00 ($36.70).

Elkrun Township — Beaver L.S.D. $28.90 ($28.60) Lisbon Exempted S.D. $33.60 ($32.30).

FAIRFIELD TOWNSHIP — Fairfeld — Waterford $29.20 ($28.70) Columbiana Exempted S.D. $26.70 ($25.70) Columbiana village $30.10 ($29.10) Leetonia village $36.10 ($35.90).

FRANKLIN TOWNSHIP — Southern L.S.D. $29.00 ($28.40) United L.S.D. $32.60 ($29.00) Summitville $29.20 ($28.10).

HANOVER TOWNSHIP — United L.S.D. $32.00 ($28.40) Hanoverton village $32.00 ($28.40).

KNOX TOWNSHIP — West Branch S.D. and Homeworth fire dept. $39.30 ($36.30) West Br. S.D. North Georgetown Fire Dept. $38.00 ($35.00) Alliance S.D. Homeworth Fire Dept. $37.40 ($33.70)

LIVERPOOL TOWNSHIP — East Liverpool S.D. $31.90 ($32.20) Liverpool City $34.90 ($35.10).

## Sorensen, JFK Aide, Resigns

### Plans Book About Late President

WASHINGTON (AP) — The top-level White House team put together by John F. Kennedy is expected to remain on the job relatively intact, at least through the November election.

But there has been a break, the resignation Wednesday, effective Feb. 29, of special counsel Theodore C. Sorensen. And a second break could come in a few weeks if Arthur M. Schlesinger Jr., the historian turned presidential assistant, decides to return to private life.

An intimate of the late president said that with the possible exception of Schlesinger he felt certain the Kennedy staff would continue to serve President Johnson.

Sorensen wrote Johnson that he was quitting "to devote the next several months to writing a book about the late president and my 11 years of service with him."

There was no indication that Sorensen, one of Kennedy's chief aides, had experienced any disenchantment with Johnson. And, he told a news conference Wednesday, he hoped his move "would not encourage others to follow suit."

Sorensen said "I feel that I have a book to write." And he added that if it wasn't written now, it might never be written. He said he would try to portray Kennedy both as an individual and as president.

In a sense, it seemed that Sorensen felt an obligation to write the Kennedy story as a stand-in for the slain chief executive. He said he never had planned to write a Kennedy book but that he and the late president had talked several times about the book Kennedy would have written after leav-

## Snow Blamed For Mishaps; Driver Hurt

A 77 - year - old Salem area motorist was slightly injured today at 8:52 a.m. in a two-car collision at N. Ellsworth and E. 4th St.

Taken to City Hospital was Austin H. Freeman of RD 1, who police said, pulled his car from snow-clogged 4th St. onto Ellsworth and into the path of an auto driven by Robert A. Groner, 62, of MC 1, Salem. Freeman was treated for minor injuries and released.

Snow-covered pavement also contributed to another two-car mishap at 8 a.m. today on E. 6th St. in front of the Senior High School. Police said Earl Otis Jr., 22, of 214 W. State St. was driving east too fast for conditions and struck a car operated by Duane Baker, 26, of 291 N. Madison Ave.

Three other minor mishaps occurred on city streets Wednesday, with snow playing a part in some of the accidents.

About noon cars driven by Sarabell Ellis, 40, of 2007 E. Pershing and William T. Lemley, 41, of RD 1, East Palestine,

## Canal Zone Reverts To U.S. Civil Rule

### Panama Presses For Negotiations On New Treaty

PANAMA (AP)—The Panama Canal Zone reverted to American civilian rule today from temporary military control even as Panama pressed the United States to agree to negotiate a new treaty.

Gen. Andrew P. O'Meara, commanding general of the U.S. Army Southern Command, returned the zone to the direction of Gov. Robert J. Fleming Jr.

O'Meara had taken over responsibility for law and order and administrative functions last Friday at the height of the violence that left four U.S. soldiers and 19 Panamanians dead.

President Roberto Chiari told newsmen that despite Wednesday's agreement to resume diplomatic relations as quickly as possible, he is going ahead with a complete rupture unless Washington agrees to negotiate a new pact.

Chiari said he would call the rest of his diplomatic personnel home from Washington and ask the U.S. government to withdraw its staff from Panama City. He said Costa Rica would represent Panama in Washington. But he set no time schedule for the withdrawals.

Chiari broke relations last Friday, during violence along the Canal Zone border that cost the lives of 21 Panamanians and 4 U.S. soldiers. So far he has recalled only Ambassador Augusto Arango from Washington, and the two governments talked steadily together until they reached the agreement Wednesday under auspices of the Organization of the American States.

In Washington, the U.S. government insisted it had not agreed to negotiate a new treaty, only to discuss all issues between the two countries once diplomatic relations are resumed. There was no indication that the United States would bow to Chiari's demand.

Officials in Washington were concerned over the situation but said they had no notification from Panama of intention to make a complete break. U.S. officials still hoped that the agreement for resumption of relations and talks would hold up.

Pressure on Chiari was mounting as a wave of nationalistic fervor with extreme-left trim-

TRUCKS HAVE BAD HABITS — When this tractor-trailer truck crashed through the front of the Northeast Branch of the Riggs National Bank in Washington recently, officials were not too surprised and they knew at once it would cost $7500 for repairs. It was fourth time in as many years the same thing has happened. The last time it happened, on Oct. 14, 1963, repairs cost $7500. Bank is located at foot of a hill.

## Representative Cites 'Threat'

### Asks Bobby Open Minutemen Probe

HOUSTON, Tex. (P) — The Houston Post quotes U.S. Rep. Henry Gonzalez, D-Tex., as saying a "thinly veiled threat" has been made against him and 19 other Democratic congressmen in a publication.

The Post said Wednesday in a copyright story from its Washington bureau that Gonzalez asked Atty. Gen. Robert F. Kennedy to investigate a group he identified as the Minutemen. He said a copy of the group's publication "On Target" contains the threat against him and the other 19 congressmen.

In his letter to Kennedy, the San Antonio, Tex., congressman said "in the light of recent developments I have become decidedly more sensitive about some of the hate material that is so widely distributed."

The newspaper said Gonzales referred to the death of President John F. Kennedy and the slaying of the man accused of assassinating him.

Gonzalez was quoted as saying the threat was directed at him and the others who voted against increasing funds to operate the House Committee on un-American Activities last year.

He said the second page of the publication "On Target" dated March 15, 1963, contains the names of the 20 congressmen, bordered in black and headed with the words: "In memoriam."

Gonzalez said the other congressmen are James Roosevelt, George Brown Jr., W. D. Edwards and Edward Roybal, all of California; William Fitts Ryan, Abraham Multer, Leonard Farbstein and Benjamin Rosenthal, all of New York; Mrs. Edith Green and Robert Duncan of Oregon; Robert W.

Gosney Says News Confab Set

## Glenn Expected To Announce Soon

HOUSTON, Tex. (AP) — World - famous astronaut John Glenn Jr. may reveal today if he plans to leave the space venture to run for U.S. senator from Ohio.

Glenn would not comment Wednesday on rising published speculation that he definitely will be a candidate for the Ohio's May 5 primary. He said, however, he would issue a statement this morning through the Manned Spacecraft Center, probably from public affairs officer Paul Haney.

In Washington, a source close to the situation confirmed the validity of the report that Glenn would challenge incumbent Sen. Stephen M. Young of Cleveland for the nomination.

However, in Cleveland, KYW radio said Glenn will announce his decision Friday.

Hugh Danaceau, a KYW spokesman, quoted Don Gosney, Columbiana County Democratic chairman, as saying the Glenn will appear at a news conference in a Columbus hotel.

The Neil House in Columbus confirmed that Glenn has reserved the Grand Ballroom of the hotel for 10 a.m., EST, Friday to hold a news conference.

Gosney, also a member of the Democratic State Executive Committee, reserved a suite of rooms at the same hotel. Gosney was reported to be one of the "highly placed Democratic officials" who have said Glenn will be a candidate.

Glenn would not say if he planned a trip to Columbus to personally announce his candidacy.

"Someone has done some surmising on their own," was the only comment from the 42-year-

## Ohio Bell Plans For Improvements

Ohio Bell today announced a $210,000 expansion and service improvement program for the Salem and Columbiana County area during 1964.

Details were announced at a press conference conducted by Ohio Bell President Frederick R. Eckley at Pick-Ohio Hotel in Youngstown.

The Salem and Columbiana County expansion program is part of a $3,300,000 capital spending program in the Youngstown District for '64.

Salem Commercial Manager A. C. Williams said that routine growth projects constitute a major part of local spending plans this year.

## Program Would Be Partly Financed By Tax Hike

WASHINGTON (AP) — Six Republican senators offered legislation today to provide a public-private health care plan for the aged that they described as the most comprehensive yet presented to Congress.

One part would provide 45 days of hospital care, up to 180 days of skilled nursing home care, or more than 200 days of home health care following treatment in a hospital for all persons 65 or over.

This would be financed by an increase of ½ to 1 per cent in the Social Security pay roll tax to be deposited in a separate health fund.

The other part of the program would create a national, federally chartered association of private insurance and group service companies which would authorize a standard medical-surgical policy for those over 65.

By enabling private insurance firms to pool their risks, a standard policy could be made available at a cost of about $2 a week, sponsors estimated.

Sen. Jacob K. Javits, R-N.Y. chief spokesman for the sponsors of the measure, called it "the program with the best chance of becoming law in 1964." It is based on the recommendations of the National Committee on Health Care of the Aged, which submitted its findings to the late President John F. Kennedy on Nov. 14.

**Opposed JFK Plan**

The American Medical Association opposed and Congress stymied Kennedy's program to provide hospital, nursing and out-patient care for the elderly by boosting the Social Security tax on employer and employe ¼ of 1 per cent.

The House Ways and Means Committee is to resume hearings on the administration bill Monday. Wednesday, President Johnson reaffirmed his support for the measure and predicted it "is going to be the law of the land."

"We have just 'begun to fight," the President told leaders of organizations of senior citizens at a White House meeting. He emphasized that under the plan the insured would be able to choose his own physician and hospital.

**Has "Best Chance"**

Javits said he thinks the bill offered by the Republican senators has the best chance of winning broad bipartisan support.

Joining him in offering the measure were Sens. Clifford P. Case of New Jersey, John Sherman Cooper of Kentucky, Kenneth B. Keating of New York, Thomas H. Kuchel of California and Margaret Chase Smith of Maine.

## Arabs Approve Joint Command

### To Oppose Israel's Diversion of River

CAIRO (AP) — The 13-nation Arab summit conference has agreed to set up a joint military command in an effort to head off Israel's diversion of Jordan River waters.

In a remarkable display of unity, the often feuding leaders of 100 million Arabs voted Wednesday night to establish a military committee with "administrative and financial possibilities as well as permanent headquarters, and all that these entail," a spokesman said.

Foreign ministers of the nations were to meet today to put the conference resolution in final form. The Arab league's military and financial committees also meet today to discuss the new command.

A final summit session to approve the resolution was expected tonight.

Though the spokesman said Arab leaders had agreed on a "positive solution" of the problem raised by Israel's irrigation project, it still was generally doubted they anticipate war

Wants Plane Outlay Hiked

## LBJ Asks Cut In Missile, Ship Funds

WASHINGTON (AP) — President Johnson is asking Congress to cut spending on missiles and ships by more than a billion dollars and to increase spending on planes by $300 million.

This was revealed Wednesday when the Defense Department sent Congress its authorization request for the 1965 fiscal year.

The request included $10.6 billion for procurement of missiles, ships and planes. Last year, Congress appropriated $11.4 billion for procurement.

Rep. Carl Vinson, D-Ga., chairman of the House Armed Services Committee that must consider the request, said "I am not disturbed at all" by the requested cut in procurement spending.

"We will see what the justification is when the hearings begin," he continued.

Vinson said the committee would begin its hearings on Jan. 27. Secretary of Defense Robert S. McNamara is scheduled as the first witness.

The authorization bill actually totaled $17.2 billion — the largest authorization ever sent to Congress by the Defense Department.

But Vinson pointed out that this figure included an authorization of $6.6 billion for research and development. In the past, Congress has not included research and development in the annual military authorization bill.

The department's authorization request presages even deeper cuts in the military procurement program. Congress usually appropriates less money than it authorizes.

The timing of the authorization bill came as a surprise because it preceded the scheduled date for President Johnson's budget message by almost a week.

## Motorist Indicted For Manslaughter

A Salem area man secretly indicted by the January Grand Jury for second degree manslaughter was released after posting $1,000 bond Wednesday by Common Pleas Judge Raymond S. Buzzard.

Raymond S. Stokes, 19, of RD 4, Salem was indicted in the traffic death of his wife, Bonnie, 18, July 22 on Rt. 45, of Salem.

Patrolmen reported Stokes was driving east on a county road and pulled in front of an auto driven north on Rt. 45 by Mrs. Beulah B. Harvith, 47, of 168 W. 8th St.

Mrs. Harvith and a passenger in her car, Mrs. Georgene Frampton, 38, of Damascus, were injured. Mrs. Frampton died Dec. 21 at Salem City Hospital.

Stokes will be arraigned Monday.

## Many Pupils Smoke

★ ★ ★ ★ ★ ★

### Despite Salem High School Watchfulness

By GLENN SCHOTTEN

Youth is the usual time in a person's life when he takes up smoking.

How many of Salem's high school students smoke and what is being done about it in light of the new findings on this habit and its relation to cancer.

Principal Wayne Grinnen estimates about one-third of the Senior High School student body smokes with varying degrees of frequency. This means about 300 boys and girls, sophomores through seniors. "We hope it isn't higher than that," Grinnen declared.

This smoking group is predominantly made up of boys, but there is also a hard core of girls who find pleasure in the habit.

Grinnen feels that smoking, like alcohol use, cannot be legislated against. Since most smoking by youth is done away from school there is little that can be done by the educational system.

"In our health classes for seniors, we will stress more than ever the hazards of using tobacco, although this warning has been a part of this course long before the current rave over smoking as a factor in lung cancer," the principal said. Outside this extra emphasis on educating youth to the health danger of smoking, no campaign is being waged to help those who may be considering taking up cigarettes or those in whom the habit is already firmly entrenched.

Most of the parents of the children who smoke are well aware of their offspring's habit, but rarely is anything done about it since most parents are

# Jury To Get Election Data

## Vote Irregularities Probe Continues

IRONTON, Ohio (AP)—Secretary of State Ted W. Brown says he will seek grand jury action on charges of voting ir-Washington townships in Lawrence County.

Brown conducted a second hearing into the charges here Wednesday. He said testimony of alleged vote buying and misuse of absentee ballots in the county will be sent to the state attorney general and the county prosecutor in an effort to initiate grand jury action.

More than two dozen persons appeared before Brown and his staff during the hearing. The secretary's record showed that of 600 ballots cast from the two townships, some 200 were absentee votes.

Brown said the first hearing Dec. 3 was to check into the matter of the disproportionate number of absentee ballots. At the time, however, witnesses told of incidents of vote buying and offers of money for the "right vote."

Voting regulations permit absentee ballots to be cast in cases when the voter will be out of the county or more than 10 miles from his polling place on election day or in cases of disability.

Only about a half dozen of some 20 persons who testified that they applied for absentee ballots because they were planning to be out of the county on Election Day said they actually were out of the county Nov. 5.

They said they had cast their ballots anywhere from a week to a month before election day but that disabled automobiles and various illnesses kept them in the county.

All the witnesses summoned Wednesday also voted absentee in the 1962 election. A few never had voted any other way.

Brown said his major concern was the testimony of the Dec. 3 hearing in which witnesses told of being paid, or knowing of others who received $5, $10 or $15 to cast ballots.

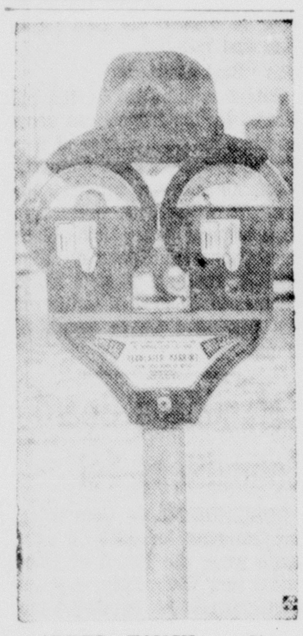

"This is the matter for which I will seek grand jury action," Brown said.

He indicated that in most cases of absentee ballot voting it was more a matter of ignorance than intent to defraud.

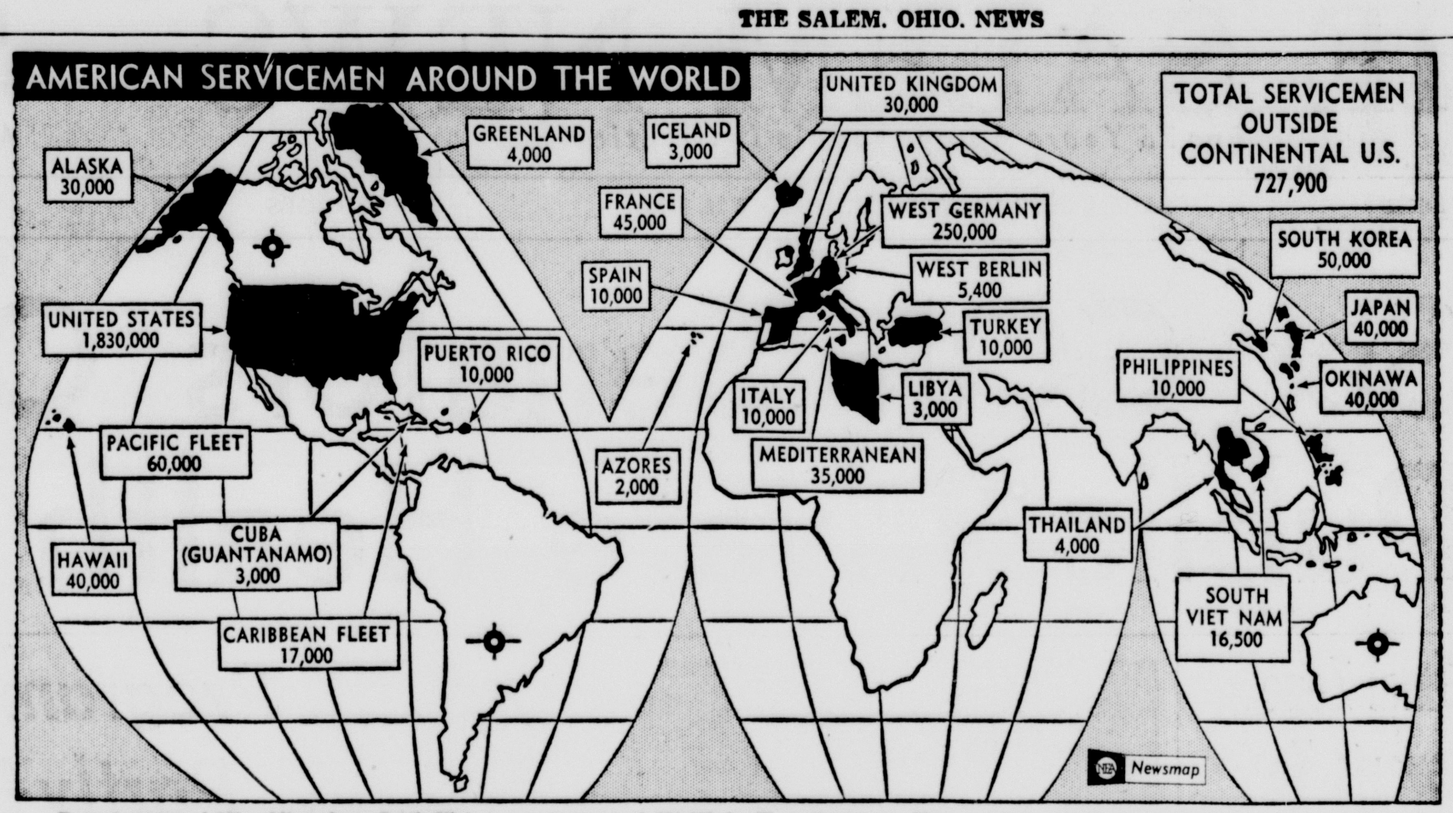

## Summitville Man Seeks Recorder's Job

## Board Prepares for May 5 Primaries

The County Election Board is drafting specifications for ballots for the May 5 primaries and expects to issue a call soon for printers' bids, setting the deadline Feb. 10 at 2:30 p.m., Frank R. O'Hanlon, clerk, said today.

O'Hanlon pointed out that Feb. 10 also will be what is known as "sufficiency day," when the Election Board convenes to determine the validity of candidates' petitions. The filing deadline for the May primaries is Feb. 5 at 4 p.m.

The board generally awards a ballot contract at the same meeting at which it passes upon the candidates' petitions.

O'Hanlon said some special issues may be filed for a vote in May, although most questions such as levies and bond issues are presented at the general election in November. But inquiries have been received from at last two boards of education indicating they are contemplating submission of special issues, he said.

Nursing Home Probe Report Issued

# State Is Criticized On Fire Inspections

NORWALK, Ohio (AP) — A grand jury report on the fire that killed 63 persons at the Golden Age Nursing Home near Fitchville calls present state fire inspections valueless and recommends legislation to tighten regulations covering nursing homes.

The report issued Wednesday night found no violation of Ohio criminal laws and concurred in a report by State Fire Marshal Fred Rice setting the probable cause as poor quality wiring.

"There is actually no regular legal requirement for inspection of these homes by the State Fire Marshal's Office or the Division of Buildings," the report stated.

"We find that these inspections are valueless. Apparently these so-called inspections are perfunctory, and there are no qualifications set up for those performing these inspection jobs. We might point out that no inspection of work fully completed and concealed can reveal anything.

"We feel, since the 1959 session of the legislature saw fit to place jurisdiction of rest and nursing homes under the State Health Department, that this department should be fully responsible, having its own staff of fire inspectors and building inspectors and that these individuals should pass written examinations and be placed under civil service."

The great loss of live in the Nov. 23 fire was blamed on lack of a sound evacuation plan.

The Huron County grand jury recommended legislation with six minimum-standard requirements:

1. All new buildings should be fireproof and all wiring should meet the standards of the National Electric Board.

2. The ratio of employes to patient load for each shift should be regulated.

3. Written reports of all inspections should be sworn to be the inspectors under oath.

4. Each nursing and rest home should be required to furnish copies of its evacupation plan to the State Health Department and to each employe, with the plan to be read and signed by the employes.

5. Fire drills should be compulsory; total evacuation should be practiced once every three months.

6. Adequate fire warning devices and sprinkler systems should be installed.

## An 'I Told You So' on Cuba

It begins more and more to look as though those who feared the Russian Communist buildup in Cuba knew what they were talking about.

They feared Cuba simply would be the training ground and jumping-off place for infiltration in Central and South America. Evidence of Communist stirring already has come elsewhere in the Carribbean and in South America. Now it looks very much as though the unpleasantness in Panama was Communist-inspired.

**PANAMA** is pretty much a poverty-stricken country. The "haves," comprising Americans and Panamanian natives employed on U.S. projects in the Canal Zone, are highly outnumbered by the "have-nots," who look with envious eyes on the relative propserity, of the Canal Zone

Dwight Eisenhower, when disorders broke out in 1959 while he was President, agreed that the Panamanians could fly their flag alongside the American flag in the Canal Zone. Thus it was stupid of American students in the Canal Zone to pull down the Panamanian flag.

That was the spark that touched off the explosive rioting which led to deaths and roused the anger of Panamanian nationals. It was a logical place for Communists to stir things up and they apparently seized the advantage.

The flag incident was only an excuse. If it had not occurred, something else would have been the excuse.

THIS IS THE TYPE of thing Uncle Sam is going to have to look forward to as long as Russian Communists have a close-by base in Cuba.

Meanwhile, the United States and the Organization of American States are hopeful that the latest agreement will return peace to the Canal Zone. Both Panama and the United States have agreed to set up a joint authority with the OAS to try to keep the peace along the border.

It is certain the United States is not going to give up its rights in the Canal Zone, which it occupies by an age-old treaty. The Panamanian government should agree, as it has agreed in the past, to respect the Canal Zone.

## Ohio Is a Sure Thing

The Ohio Department of Development's new economic regions map, which carves the state into eight industrial districts, carries this message for all prospective industries, tourists and residents: Ohio has something for everyone.

The message isn't any news to native Ohioans. They've known all along that their state already is so diversified in terms of topography, resources and population that it can be a perfect home for almost anyone willing to look it over.

Ohioans know, for instance, that they live in a state that contains some of the nation's largest industrial centers yet offers an unusual abundance of scenic wonders. An energetic roadbuilding program has brought Ohio's wilderness areas and recreation spots to the doorsteps of its urban centers.

Development Director George Wilson is endeavoring to lure some of Gov. Rhodes' promised 200,000 new jobs into Ohio by showing that every section of the state has superb qualifications for meeting the special demands of industry.

By carving the state into sections for this purpose, he is making what appears to be a specialization pitch. But as he and anyone else who lives in Ohio knows, the biggest selling point in Ohio is Ohio itself.

Granted, certain sections of the state are eminently well-suited for certain types of industries and people who possess special skills. The fact these areas are part of a state that has gained the right to its mighty river's title "Beautiful Ohio," makes them double appealing.

We wish Mr. Wilson success in his efforts to sell Ohio.

Being Ohioan we don't see how he can miss.

## No DSA Eligibles

For the second time in the decade that the Salem Junior Chamber of Commerce has promoted its "Distinguished Service Award" the presentation has gone by the boards. Again this year, as was the case two years ago, there were no eligible men who measured up, according to the Jaycees' awards committee.

Every young man in the 21 to 36 age bracket can not be expected to busy himself completely in unselfish community service because many are young fathers who have home obligations, so the public should not be critical. However, there are a number of young men who lend time and talent in many worthy ventures who by the time another year rolls around may be nominated. The candidates are nominated. They just don't present themselves.

## Statistics On Romance

Now is the time for all smart Salem girls to help themselves, for things are likely to get a bit more competitive over the next couple of years.

Reason is that girls generally marry before they are 20, while most boys marry between 22 and 23. This means that girls born in the postwar baby-boom years of 1946 to 1949 will be looking for prospective bridegrooms among the young men born in the leaner war years of 1942-45.

According to statistics at the University of Dayton, by 1966 girls in the one category will outnumber eligible men in the other category by 364,764. In 1967 it will be a little better, with a surplus of only 316,629 girls.

Remember, the next Leap Year won't be until 1968.

## Conversation Topic

If the surgeon general's report on the effects of smoking causes the great shift away from cigarettes that some people suspect it might, a great area of conversation is now as dead as the dodo bird.

Gone are such questions and comments about cigarettes as:

"How many packs a day do you smoke?"

"Flip-top or soft pack sir?"

"Gotta butt?"

"What kind of cigarettes are you smoking today, ol' buddy?"

Or buying?"

"Filter or plain tip?"

"How long have you been smoking?"

"Haven't had a cigarette since 9 o'clock!"

"Here's another nail in the coffin."

But if smokers switch to sweets, we can hear the slogans now:

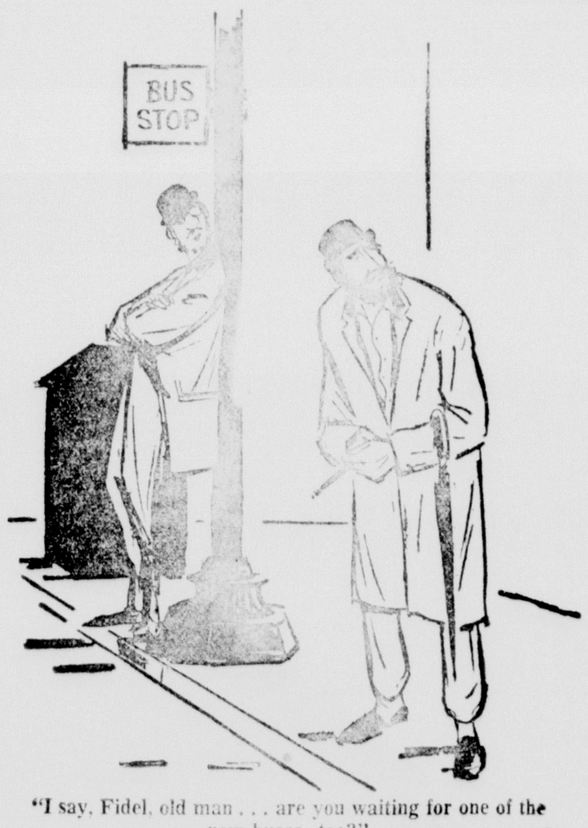

"Not a cavity in a carload."

"I'd walk a mile for a juicy mint."

## Blinker Light Needed

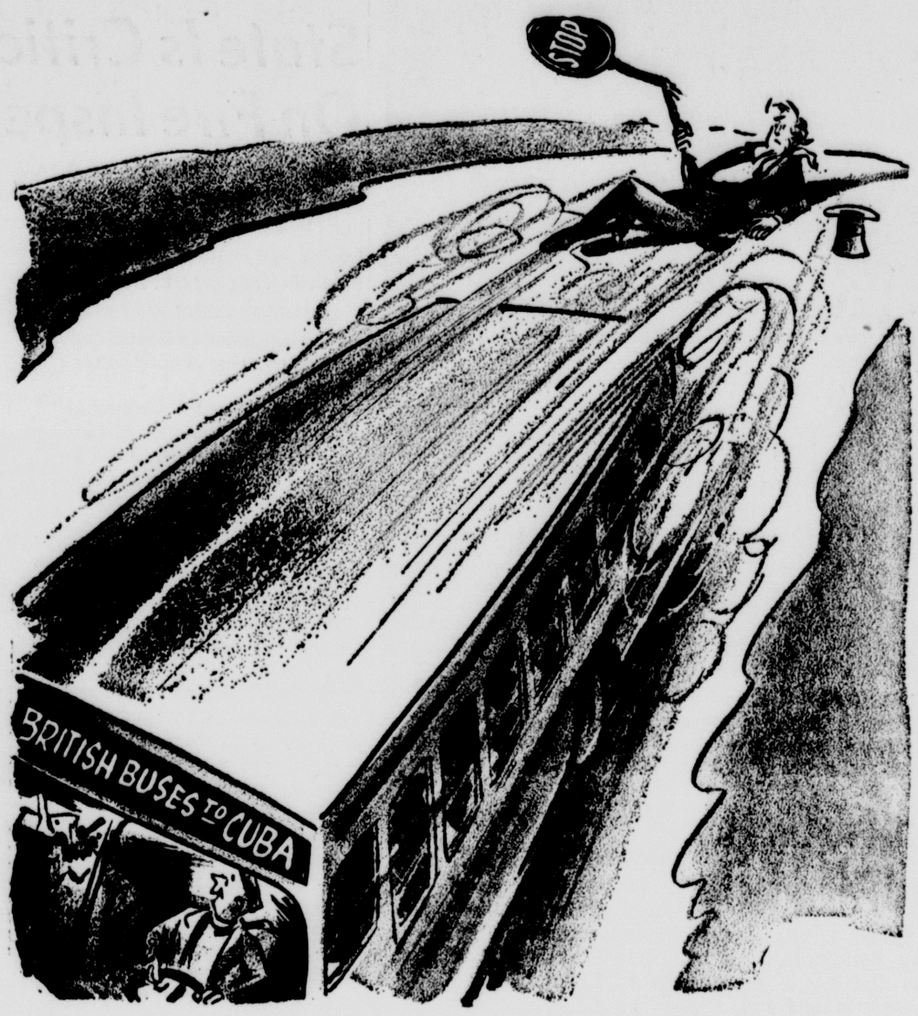

Green Township trustees deserve district-wide support for their project to have the Ohio Department of Highways erect a blinker light at the dangerous Routes 62-165 intersection three miles north of Salem. In the summertime especially the corner is a "suicide" intersection because of heavy traffic on both arteries.

We add our endorsement to the trustees' recommendation and hope that the state highway Division 4 engineer at Ravenna will take action before too long. Mahoning County Engineer Samuel Gould can be counted on to lend his support.

"I say, Fidel, old man . . . are you waiting for one of the new buses, too?"

## U.S. Textile Trade Hit

By VICTOR RIESEL

Few realize it, but tens of thousands of U.S. citizens may lose their daily bread and find it tough to get new jobs because Canada is selling wheat to Communist China.

Victor Riesel

Those in the know, especially in New England and in our Southland, are worried by secret deals the Ottawa government made with Peking. The Chinese Communists are tough, shrewd bargainers. When they agreed to buy wheat north of the border, they demanded that they be permitted to sell Communist goods in Canada. The Canadian government agreed to open its ports.

In came a flood of Peking's goods—especially textiles. Out of jobs went 1,000 textile workers whose employers were hit hard by the unbelievably low cost of materials from Mao's mainland. Hundred of additional Canadian textile and clothing workers are continuing to lose their jobs regularly because of this competition.

The Chinese Communists can undercut the world on prices. There is just no wage system as we know it, in the "People's Republic of China." When I was in Hong Kong 18 months ago, for example, I learned of a proposed Expert Commodities Fair which Peking planned to hold in Canton. Prices on the schedules meant nothing when the fair opened last May.

-:-

IN THE CHINESE Communist department store in Hong Kong for example, you can get Red goods for an even lower price than in the cut-rate stores on the colony's Nathan Road.

Following a similar price policy in Canada, the Peking export trusts will be permitted to undersell the textile and clothing manufacturers there. True, it's just the beginning. But it is a substantial beginning. In 1962, the Canadians permitted the mainland to sell them about $1.3 million worth of goods. Last year this quota was raised to some $7 million. Soon the Peking government will be able to sell as much as the Japanese do in the Dominion. That would bring the figure up to $14 or $15 million.

And the figures will soar far higher. There is evidence of ever - skyrocketing Communist sales. The Canadian quota on Chinese (Peking) handkerchiefs, for example, was 3,200 dozen in 1962.

After the wheat deal the new quota was fixed at 450,000 dozen. The old quota of cotton shirts from the Chinese mainland used to be 18,000 dozen. After the deal, the ceiling was 200,000 dozen.

THIS TREND applies to trousers and undergarments in the textile field as well as to such items as sewing machines, plywood, hair brushes and silks.

The Communists overlooked nothing. The Canadian Ministry of Trade told some textile people that the original agreement would call for the wheat to be shipped in Canadian bags. After the deal became public, this clause was eliminated. Now the Chinese are supplying the bags.

Spokesmen for the Primary Textile Institute of Canada have charged that their industry has been made "the goat," and that their business is being chopped away.

Word from the Textile Worker Union Canadian Director J. Harold Daoust is that textiles will be "one of the principal exports which China will send to Canada to help pay for wheat."

Since even the meager imports reported here have cost the textile workers some 1,500 jobs and the manufacturers considerable profit, labor and industry leaders are disturbed. This has hit the industry hard as ti is already a small field employing only 76,000 people.

How can all this affect the United States?

TEXTILE EXPERTS point out that the Candian industry is too small to satisfy more than 60 per cent of the country's needs. So Canada has been one of the world's biggest "net" importers of textiles and clothing. Almost half of these imports are from the U.S. Our textile field already is hard hit. Not too long ago it employed 1¼ million persons. Now the payrolls are down to 875,000 in the basic textile industry.

The U.S. ladies' and men's garment field is not as flourishing as it once was. These businesses depend considerably on exports to Canada to offset competition from Taiwan, Hong Kong, Japan and the Philippines.

If the Chinese Communists, with their communal production system and subsistence wage levels, which frequently operate without even a currency exchange, bump us out of the Canadian market our textile centers will be affected.

There apparently is nothing the U.S. can do. Canada is a sensitive, sovereign — and now antagonistic—nation. It can sell wheat to Communist China just as Britain can sell buses to Cuba.

But those in our own State Department who are itching to open trade with Peking, should now know that an open port is a two way street, if I can mix my metaphors.

## Ann Landers

### ANSWERS YOUR PROBLEMS

Dear Ann Landers: Some friends of ours have a retarded son. The boy is 10 years old, but his mentality is at the four- or five-year-old level. He usually is pleasant and well-behaved but it is apparent that the child is mentally deficient.

The problem is the boy's 16-year-old sister. She is ashamed of her brother and fearful that if her friends see him it will hurt her socially. She insists that the boy be in his room when she comes home from school — in case she brings a friend. When she has a date the retarded child must be kept out of sight.

The parents want to be fair to the girl but they want to be fair to the boy, too. They don't know what to do. Can you help? — NEWARK.

-:-

**Dear Newark: The attitude of the 16-year-old girl is a sorry reflection of ignorant parents. The daughter should have been taught years ago that her brother needs love and kindness. To treat the little fellow as something to be hidden is shameful.**

**Write for literature to the National Association for Mentally Retarded Children, 386 Park ave S, New York 16, New York. The parents, as well as the daughter, need educating.**

### Errant Father

Dear Ann: I have been married 12 years and we have four lovely children. My husband causes me more aggravation than all the kids put together. My biggest complaint with him is that I never know when he will be home for supper.

I used to phone him at work every day at 4:15 but the fellows at the plant needled him about the calls and nicknamed him "Mr. Hen Pecked," so he ordered me to cut it out. He refuses to call me for fear someone will hear him.

He could be home easily by 6 o'clock if he wanted to but more often than not he stops at a tavern and has a drink—or three or four — with the boys.

The kids like to eat with their dad so sometimes we wait as late as 8 o'clock. By then the kids are starved and it keeps me in the kitchen till 10 o'clock.

Is there a solution? — 24-HOUR CHEF

-:-

**Dear Chef: Reach a simple understanding with your man.**

**If he's not home by 6:30 have dinner without him.**

**Any man who'd rather booze it up in a tavern than have dinner with his family has no right to complain about a cold dinner—alone.**

### Princess, Pauper

Dear Ann: The letter from "Concerned Family" made me furious. So they don't want their well-heeled, socially prominent mother, age 54 to marry a department store clerk because it might damage her in the eyes of her friends? If she listens to them she is out of her mind.

I'm a widow, just about her age. I have my own city apartment and country place, a car and everything money can buy. But money can't buy the things I really want.

My children are happily married so I leave them alone which is as it should be. I try to keep busy b I miss the male companionship I enjoyed for 30 years.

I hope this woman ignores her selfish, snobbish family and marries the department store clerk. And if he has a friend, I'd like to meet him. — SICK OF SOLITAIRE.

**Dear S O S: Sorry I can't check out the friend angle for you but your letter is a good one and I hope for the widow's sake, that she follows her heart.**

---

**Ann Landers will be glad to help you with your problems. Send them to her in care of The Salem News, enclosing a stamped, self - addressed envelope.**

## Coercion Ruling

By DAVID LAWRENCE

All presidential candidates and those who seek election or reelection to Congress had better watch out. The Supreme Court of the United States, by unanimous decision, now has ruled that to make any promises of financial benefits to the prospective voters could be construed as a form of "coercion."

David Lawrence

The highest court, in a case just handed down, was dealing with an election in a plant where the workers were trying to decide whether to designate a labor union as their bargaining representative. The employer in the weeks preceding the election conferred certain benefits unconditionally and stated that they were of a permanent nature. The United States Circuit Court of Appeals had ruled that this was a proper procedure but the Supreme Court of the United States held otherwise.

This means that, no matter what the employer says during a pending election, his words can be construed as an interference with the right of the workers to vote as they please. This sweeping decision takes away from the employer any right he might previously have thought he had to express himself freely under the First Amendment of the Constitution and to tell his employes frankly why he believed they would be better off without a union.

IN THIS particular case, the employer wrote a letter to employes in March 1959, just before the election was to be held, giving a detailed statement of the benefits granted by the company since 1949 and an estimate of the monetary value of such benefits to the employes. These included for 1960 a birthday holiday and additional overtime and vacation benefits which, the employer said, had their basis in a policy established earlier but had not been previously announced.

The National Labor Relations Act forbids an employer "to interfere with, restrain, or coerce employees" in the exercise of their right to choose by their votes a union to act as bargaining agent. The Supreme Court in this case said that the Court of Appeals "was mistaken in concluding that the conferral of employe benefits while a representation election is pending, for the purpose of inducing employes to vote against the union, does not "interfere with the protected right to organize."

The Supreme Court took the position that "the beneficience of an employer is likely to be ephemeral if prompted by a threat of unionization which is subsequently removed."

The court declared, moreover, that it was not "of controlling significance" that there was an "absence of conditions or threats pertaining to the particular benefits conferred.

THE COURT added that this would be important "only in it could be presumed that no question of additional benefits or renegotiation of existing benefits would arise in the future; and, of course, no such presumption is tenable."

The Supreme Court concluded that the "danger inherent in well-timed increases in benefits is the suggestion of a fist inside the velvet glove," and that "employes are not likely to miss the inference that the source of benefits now conferred is also the source from which future benefits must flow and which may dry up if it is not obligaed."

Now that the Supreme Court has ruled that the promise to confer benefits is not only an attempt to influence the result of an election but is a form of "coercion," it will be interesting to note what the effect will be on political campaigns in the future.

The Federal Corrupt Practices Act governing elections for the presidency and for Congress specifically defines "coercion by means of relief appropriations." It says:

"Whoever uses any part of any appropriation made by Congress for work relief, relief, or for increasing employment by providing loans and grants for public-works projects, or exercises or administers any authority conferred by any appropriation act for the purpose of interfering with, restraining, or coercing any individual in the exercise of his right to vote at any election, shall be fined not more than $1,000 or imprisoned not more than one year, or both."

-:-

AGAIN AND AGAIN, candidates for public office have promised that they could "do more for" a given state or district than some other candidate. During the incumbency of many administrations, bills have been passed bestowing direct benefits on constituents in certain areas, and a political flavor has often surrounded the passage of such laws.

Scarcely a year goes by that legislation isn't proposed or enacted which confers a financial benefit on the voters of a particular state or community.

Members of Congress can, of course, champion the enactment of statutes that are beneficial only to particular groups of voters. But the new Supreme Court decision can be cited to argue that to mention the passage of such beneficial legislation in relation to a political campaign in a state or district now is a form of "coercion."

## Today In History

Today is Thursday, Jan. 16, 1964. There are 350 days left in the year.

Today's highlight in history:

On this date in 1903, a letter to the London Times carried the first mention of auction bridge. The card game originated in India.

On this date:

In 1778, France recognized the independence of the United States.

In 1942, American film actress Carole Lombard was killed in an airplane crash.

In 1956, the Soviet Union said it would strive for a 65 per cent increase in heavy industry over a five-year period.

Ten years ago — Vietnam's new premier demanded negotiations for a new French and Vietnamese treaty based on full equality between the two countries.

Five years ago — The Atomic Energy Commission announced development of a five-pound atomic generator capable of doing the work of 1,450 pounds of the best electric batteries.

One year ago — The U.S. Court of Appeals for the 4th District ordered Clemson College of South Carolina to admit a Negro student—the first at Clemson or any other white school in the state.

## Back Through the Years

*(From The News Files)*

10 YEARS AGO — Nancy Bailey, daughter of Mr. and Mrs. Nelson Bailey of 628 E. Fourth St., has been included on the Baldwin-Wallace College dean's list for the winter quarter.

Mrs. Robert Scott was hostess to a meeting of the M.C. Club at her home. The members elected Mrs. Darwin Charnesky treasurer and Mrs. Hill news reporter.

25 YEARS AGO — The Farr class of the Christian Church was entertained at the home of Mrs. Oliver Linton. Miss Juanita Swartz was associate hostess.

Davis Brown and Will Ross were guests at the Salem Boys Club meeting.

35 YEARS AGO — Paul J. Smith, Gordon Stringer, Charles Donaldson, Bob Ketterer and Vernon Van Nostrand of Troop 2 of the Boy Scouts, were given their tenderfoot badges by Scoutmaster Pete Stratton.

Miss Myra Erwin and Mrs. Percy Tucker were guest speakers at the Travelers Club meeting.

## So They Say

I am in this presidential nomination race all the way . . . I am neither a "summer soldier" nor a "sunshine patriot" of the political wars; neither am I the foe of any other Republican.

# The Doctor Says

By Dr. WAYNE G. BRANDSTADT

## Victims of St. Vitus Dance

If your child gets chorea, also known as St. Vitus's dance, proper treatment will prevent serious complications.

Dr. Brandstadt

The disease usually occurs between ages 7 and 14. In most, but not all cases, it is associated with rheumatic fever. It is characterized by fits of laughing and crying, purposeless twitching or writhing movements and easy tiring.

Attacks may persist for several weeks before they disappear completely. During this time a great deal of patience is required of the parents, because the characteristic outbursts are part of the disease. Your child cannot control either his emotions or his movements.

The twitching movements are sometimes so violent as to make it necessary to place the child in a padded crib to prevent his hurting himself.

The treatment should be directed at the underlying cause—the rheumatic fever—to prevent possible rheumatic heart disease.

Phenobarbital may help to control the symptoms.

One mother said that her son had this disease when he was 10, and that now three years later) he still has poor muscular co-ordination of his muscles. In this instance, I believe some other cause than the boy's attack of rheumatic chorea should be sought. If no definite cause can be found, special training to improve his co-ordination should be helpful.

Q — My doctor says my 3-month-old baby has a hernia in the groin and that it should be operated on right away. What do you think?

**A—This has been** a controversial question, but the present trend is to operate on these hernias earlier than formerly, because this is the only sure way to prevent strangulation of the hernia — a serious complication. Babies withstand the operation well.

**Q—When my** 10-year-old daughter was a baby she had rheumatic fever, but we didn't know it. As a result, when she was 5, the doctor found that she had a leaking heart valve. She has been taking penicillin since she was 7. If she had rheumatic fever again would she be immune to the penicillin? Is there any other drug that would help her?

**A—Germs, not people,** become immune to penicillin. Some persons are allergic to it but, if your daughter has taken it for three years, she is not one of these persons. If, however, she got any type of infection with a germ that was resistant to penicillin, another antibiotic to which the germ was susceptible could be used.

## Fox Bounties Total $488 In County

Those pesky red and gray foxes that roam the countryside cost Columbiana County a total of $488 during 1963, according to report issued by Sheriff Russell VanFossan's office.

Last year 196 foxes were turned in for the $3 bounty, for four feet and two ears. This is 390 less than that turned in for bounty in 1961, when the county paid $1,758 for 586 foxes.

The commissioners failed to set up any funds in 1962 for payment of the bounty.

# Hints *from* Heloise

— By Heloise Cruse —

Dear Heloise: Today I had a brainstorm and it turned out beautifully so I decided to let you in on it. When something "clicked" . . . . I said, "Why not?"

I had read of various ways to clean the grease from the bottoms of electric skillets. Here's what I did:

First, I removed the screws and took off the plastic tips from the legs. Next, I turned the skillet up side down, placed the screws and metal parts of the legs on top of the skilled then laid a thick layer of soft cloth on top of this. (Old bath towel, etc.)

Keeping the skillet in this upside-down position, I put the skillet, rag and all, into a large plastic bag, reached inside with a bottle of ammonia and saturated the cloth thoroughly with the ammonia.

-:-

**NOT KNOWING** what ammonia might do to the handle I took a strong rubber band and fastened the bag just about the handle.

Now, I opened my oven doors and set the bag, skillet and all inside (where if it leaked, it could do no harm.)

I left the skillet in the oven all day and this evening I removed it to the sink and unbagged it.

Sure enouh, by using a little scouring powder, a rubber scraper and a steel wool pad, it cleaned off easily and it is as bright as a new silver dollar in just a few minutes.

GEORGIA MILLER.

-:-

**We KNOW that AMMONIA IS NOT supposed to be used on aluminum. It is supposed to pit aluminum. However, I tried this on an electric fry pan and also on the outside of some hammered club aluminum.**

**It works.**

**I personally found no more pits, but even if you did, a few tiny pits are better than a soiled bottom on a skillet, eh?**

**HELOISE.**

DEAR HELOISE: Instead of putting a dehydrated cereal into watery baby food, I use a clean, empty baby food jar to warm the required amount of food.

This way the entire jar of food is not warmed at each feeding and the total spoilage is minimized.

EILEEN MASON.

-:-

**Ladies, baby food manufacturers write that what causes most of the watery food in baby jars is because mothers feed their babies from the jars.**

**The saliva from the babies' mouths is still on that spoon when you dip it back into the jar of food. This saliva breaks down and causes the watery substance in your baby food jars.**

**To prevent this watery substance which accumulates, it is suggested that you either pour the food out of the jar and feed him from a bowl or do as this nice woman suggested.**

**HELOISE.**

DEAR HELOISE: Why can't clothing manufacturers realize that we gals would like to have a bit of cloth tucked into the pocket of a garment for use in patching?

I always need some for tears, cigarette burns, a weak spot under the arms — and my children!

And . . .I know there are plenty of scraps left over from cutting!

EDNA RUSKE.

:-

**This is a great idea. We housewives need this little scrap of material.**

**HELOISE.**

DEAR HELOISE: Since we get trading stamps everywhere, I've had plenty of experience when they become stuck.

I put the "stuck-together" stamps in a sieve or strainer the size of the top of my tea kettle or saucepan. I let the water come to a boil and this produces steam. The stamps will get moist and you can pull them apart. Then, when the are dry, they are ready for use without adding any glue whatsoever.

E. M.HADEN.

-:-

DEAR FOLKS: We have had many requests on how to pad an ironing board. I think our main problem is that we do not pad it enough!

Old blankets, quilts, and anything to act as a cushion **makes your ironing go faster.**

**The main thing is that after you apply all of this padding to your ironing board, if you will take one, two or three sheets of foil Heavy foil is much better than the lightweight and place it on top of the padding before you add your final top cover it will reflect the heat and your ironing will go twice as fast.**

**Know why?**

**The steam from your iron does not go into all of the padding When the steam hits the foil, that's it.**

**Try some foil under the top cover of your ironing board. And while you're removing that top cover see if you don't need some more padding.**

**Happy Ironing.**

**HELOISE.**

DEAR HELOISE: Crocheted doilies, slightly starched, can be laid one on top of the other on your dryer and when dried they look perfect without even ironing.

MARIE KRAUSE

# Reports Are Heart When Leetonia Council Meets

LEETONIA — Police pension and fire department reports were given and several other items of routine business were conducted when Village Council met Wednesday in the office of Mayor Ralph Kennedy.

The Police Pension Board report, submitted by Police Chief Allen Gibson, secretary of the board, and Councilman Dan Cullinan, chairman, showed a pension balance of $7,401.41 on Dec. 31, 1962. The sum of $2,277.87 was received during 1963. Disbursements during '63 totaled $2,733.60. The cash on hand balance as of last Dec. 31 was $7,120.69.

Fire Chief Eldon Holt stated, in his report, that 28 alarms were answered by the volunteer department during 1963 as follows: Automobiles, three; grass fires, eight; barns, three; garage, one; railroad cars, two; residences, six; sheds, two; false alarm, one; electrical wires down, one; and mutual aid, one.

He added that the fire loss in Leetonia was $4,025 and in Fairfield and Salem townships $5,600 for a total fire loss of $9,625.

Average number of men responding per alarm was 10. Three hundred and fifty-four man hours were spent in fighting fires with 250 man hours spent for practice and fire drills. A total of 604 man hours were spent by the firemen.

Eleven firemen also attended a two-day regional fire school in Wellsville.

-:-

MAYOR KENNEDY announced that he had met with several officials from the State Highway Department and State Rep. Clarence Wetzel in regard to repairing several village streets used by state trucks. The streets have been used extensively by the trucks during the past several months and are in need of repair.

Mayor Kennedy tried to induce the state to do the repair work and felt that indications are favorable that the state will do the work.

Donald Coleman and Dean Votaw, both of Leetonia, were recommended by the mayor and appointed by council to serve on the Leetonia Volunteer Fire Department.

Approval was given to a contract with Salem Township trustees for use of the village dump for one year, Jan. 1 to Dec. 31, at a sum of $180.

Street department personnel were praised by Council for their work in cleaning up the snow recently. Cullinan received special commendation for operating the tractor and lift for a period of 10 hours.

Total village expenses for the first two weeks of January totaled $4,942.69.

## Smoking

(Continued from Page One)

smokers themselves.

It is difficult for a Dad to tell a son to quit smoking as he waggles a cigarette from his own mouth. A number of teachers smoke.

For many years smoking has been forbidden in Salem schools and on the grounds. At the high school this prohibition includes the sidewalk along the high school along E. 6th St.

However, this rule against smoking was born chiefly from a need for safety and prevention of fires rather than any concern over the health of the smoker or its influence on other students.

Washrooms are a favorite hideaway of the clandestine student smoker. Other nooks that favor privacy are also sought out for what the student thinks is a few needed "drags".

STRICT PUNISHMENT is meted out to those "caught in the act". A student found smoking is suspended for three days. Furthermore, he gets zeros on his tests in that time and has no opportunity to make them up.

This school year a junior girl and two boys were discovered smoking and given suspension. The girl implicated two others, but since these other two suspects were not actually caught smoking, no action was taken.

Checks are made periodicaly by school personnel of girls' and boys' restrooms to spot violators.

Why do youth smoke? Grinnen says most youngsters starting smoking do it for "something to do". Later, after the habit is ingrained, students say cigarettes help them to "control their nerves" or "calm down."

-:-

THE PRESENT RULING that no student is allowed off the school grounds during the school day without an excellent excuse means that the habitual smoker must go from 8:30 a.m. to 3:30 p.m. — seven hours — with no chance to puff on a cigarette unless he "snitches".

There is absolutely no chance to smoke even at noon. Pupils get a half-hour lunch period and whether they eat the prepared school lunch or a sack lunch, they must consume it in the cafeteria. They must remain there for half of the 30-minute lunch period, then may go outside for air or exercise so long as they stay within the semi-circle formed by the driveway in front of the gym entrance and the sidewalk by the parking lot. Throughout this entire period, they are under surveillance and smoking is impossible.

-:-

SMOKING BECOMES a problem in seventh grade and up, Grinnen said. He has heard of no instances of smoking younger than that in Salem. Cigarettes have been found secreted away in lockers at the junior high on occasions and youngsters of this age have been observed daily hurrying on a cigarette in nearby parking lots before classes begin.

**PRIMARY CIRCUIT — First of the 18 presidential preference primaries will be held in New Hampshire on March 10. Republican candidates Gov. Nelson Rockefeller of New York and Sen. Barry Goldwater of Arizona are already on the campaign trail there. New York will hold a primary in addition to states shown on Newsmap. The date has not yet been set, but is generally held on the first Tuesday of April. Alabama will hold a Democratic-only primary on May 5. Last primaries before the Republican and Democratic National Conventions are in California and South Dakota on June 2.**

## 3 Injured In Rt. 30 Crash Near Liverpool

Two East Liverpool area women were hospitalized and the husband of one was treated for injuries after a two-car headon crash today at 12:20 a.m. on old Route 30, a mile north of East Liverpool.

Admitted to East Liverpool City Hospital were Mrs. Alice L. Gamble, 44, of RD 3, East Liverpool, in fair condition with a fractured nose and facial lacerations, and Geraldine K. Lonkert, 20, of RD 1, East Liverpool, in good condition with abrasions of the right knee and contusions of the right forearm.

Mrs. Gamble's husband, Ben, 50, driver of one of the autos, was treated for lacerations of the left hand and forehead and released.

The Lisbon post of the State Highway Patrol said the crash occurred on a section of old Route 30 which is divided at this point into three lanes on a hill and curve.

Miss Lonkert was traveling north in the passing lane and overtaking another vehicle when the Gamble car, going south, struck the young woman's car in almost dead center. Both cars had major damage.

Gamble was cited for unsafe operation.

Three other county motorists were unhurt in two minor mishaps Wednesday morning, but one was cited for a traffic violation.

The Patrol cited Mrs. Emma C. Walker, 56, of RD 3, Lisbon, for failure to yield the right of way after she collided at 9:45 a.m. with a car operated by Alan Lee Cornell, 19, of East Liverpool. Mrs. Walker pulled from County Rd. 424, north of East Liverpool, onto Route 267, striking the youth's vehicle.

In a one-car mishap at 11:50 a.m. Burton P. Curtis, 50, of RD 1, East Palestine, ran off the right side of County Rd. 428, just south of Route 7, struck a culvert and ran into a snow bank.

## Deaths Funerals

### Mrs. Curtis Wright

KENSINGTON — Mrs. Sarah C. Wright, 93, died of complications at 7:30 p.m. Tuesday at the home of her daughter, Mrs. Curtis McGhee.

Born Oct. 11, 1870, in Fox Township, Carroll County, she was the daughter of William and Lillie McBain Barber. She was the widow of Curtis C. Wright, who died in 1931. She was a member of the Hanoverton Presbyterian Church.

Surviving are another daughter, Mrs. Olive Frost of Ft. Lauderdale, Fla., six grandchildren and nine great-grandchildren.

Services will be Saturday at 2 p.m. at the Maple Funeral Home, with Rev. Leroy Antram of the Mechanicstown Presbyterian Church officiating. Burial will be in Bethesda Church Cemetery at Millport.

Friends may call at the funeral home Friday afternoon and evening.

FUNERAL IN SEBRING

Services for Mary Diane Dixon, 14, daughter of Mr. and Mrs. W. L. Dixon of W. Ohio Ave., Sebring, and niece of Mrs. Marshall Sutherin of the Albany Road, who died of a heart attack Monday at the Alliance City Hospital, were held today in the Sebring Methodist Church.

remainder of the Columbiana County program for 1964.

Williams reported that progress toward introduction of all-numeral telephone numbers in the Youngstown District, including Columbiana County, has reached about 30 per cent of the total telephone numbers.

All - numeral telephone numbers are needed to meet the present and future demand for telephone service needed nationwide by a growing population. By 1966 all Bell telephone customers will have the all - numeral numbers.

Last year saw a gain of 535 telephones in northern Columbiana County exchanges. Salem added 250; Columbiana, 95; East Palestine, 115; Leetonia, 35; Lisbon, 15; New Waterford, 5; and Rogers, 20. Ohio Bell expects to add about 600 more phones in these exchanges this year.

The steady growth in the number of telephones in service also reflected a rise in calling volume. Local calls placed in the Salem exchange last year reached 44,000 on an average business day.

Long distance traffic also is on the increase with more than 7,000 calls to out-of-town points being placed by Salem area people each day.

with Israel soon.

The spokesman would give no details of the new command and declined to say whether all Arab states would participate.

The spokesman said the agreement did not specify the area in which Arab forces might operate and did not limit the command to any specific task. He would not say whether troops of one nation would be stationed in the territory of another. He said no site had been selected for the command's headquarters.

This would be the first joint command of the entire Arab world.

The United States and Britain made inquiries through their Cairo embassies about the Arab military plans.

In Tel Aviv, Premier Levi Eshkol of Israel warned the Arab leaders "we shall frustrate any attempt to interfere with us."

## Center Trustees Air Snow Removal

Center Township trustees Wednesday night discussed their recent snow removal program and reported that all roads permitted at least one way traffic.

Bills of $1,072 were read and ordered paid. The trustees will attend the state trustees convention in Columbus Jan. 23-25.

The next meeting will be Jan. 31 at 7 p.m. in the township offices in the Farmer's Bank Building, Lisbon.

First U.S. state to adopt a direct primary for party elections was Wisconsin, May 23, 1903.

## A&P Names Toledoan Area Superintendent

Clifford C. Smith, a 35-year veteran with the Great Atlantic & Pacific Tea Co., has been named general superintendent in charge of the Youngstown unit of the company, it was announced today by W. A. Donahoe, president of AP's Central Divsion which includes this area.

Smith comes from Toledo where he was sales manager of the Toledo unit. He replaces Ivan R. Wolf, who is being assigned elsewhere in the Central Division.

## Bliss Gets 'E' Award For Exports

The E. W. Bliss Company, at a luncheon in Canton today, received the Presidential "E" Award for export expansion.

Herbert W. Klotz, U.S. Commerce Department assistant secretary, presented the award to Carl E. Anderson, Bliss president, and E. W. Shuster, vice-president of international operations for Bliss.

Officials of Bliss' Salem plant were on hand for the event.

Klotz said that Bliss "has contributed significantly to total exports of manufactured goods by its sales of metalworking machinery, aircraft arresting equipment, traffic control equipment and alarm systems through more than 130 agents in 54 countries of Europe, Asia, Africa and South America."

The Commerce Department official added: "The day when nations went to war over commerce has passed. The day when they may achieve peace through commerce is approaching. Just as it is more constructive to exchange ideas rather than threats, so it is more productive to exchange goods rather than missiles."

Citing foreign trade's importance to the American economy, Klotz said that Bliss had answered the government's request for assistance in "a new national emergency." The company has made "spectacular gains" in export expansion, he declared.

Rep. Frank T. Bow of the 16th congressional district, introduced Mr. Klotz.

## Rumors Circulate Vatican Guard To Be Eliminated

VATICAN CITY (AP) — Rumors circulated at the Vatican today that the 458-year-old Swiss guard may be a casualty in the modernization program of the Roman Catholic church.

Vatican officials said they had no information to support the rumors that the picturesque stalwarts in renaissance uniforms designed by Michelangelo would be eliminated. But Vatican circles felt there was possibly a good basis for the rumors.

Pope Paul VI told Roman nobles and aristocrats Tuesday their ceremonial roles at the Vatican might be changed. He noted that the nobles had a special place at the Vatican because of ties to the papacy when it had temporal power. Now, he said, the papacy was entirely absorbed in spiritual duties.

Swiss guards also play largely a ceremonial role at the Vatican. The guard dates its foundation from Jan. 21, 1506, when 150 Swiss soldiers entered Rome to serve Pope Julius II.

In 1527, 147 out of 189 Swiss guards were killed while successfully defending Pope Clement VII from German and Spanish troops sacking Rome.

The guards still vow to fight to the death to defend the Pope.

## Glenn

(Continued from Page One)

old astronaut.

Ohio State Democratic Chairman William L. Coleman said in Columbus he had not heard of a decision by Glenn to enter the race but he understood the astronaut planned to be in Columbus.

He said he had no plans at present to meet with the astronaut.

Glenn has said previously that if he decided to run for the U.S. Senate this year, he will announce his candidacy in his home state of Ohio.

"I think that is what I would do," he said, "if that is the decision I would make."

Glenn said then he never gave a flat "no" to politics.

"I have never said one way or the other," he said.

Rumors have persisted for weeks that Glenn, a native of New Concord, Ohio, would enter the Ohio primary against Young. Wednesday the speculation seemed all but ended when various sources reported Glenn's decision, in the affirmative, had been made.

The National Aeronautics and Space Administration said it had not been advised of a decision by Glenn to enter politics. NASA officials also took note of reports that Glenn had considered offers to enter private industry.

Among reports that Glenn planned to make the race was one by the American Broadcasting Co. in New York. Jules Bergman of ABC said Glenn refused to comment to him officially "but clearly indicated" he would announce for the race in Columbus Friday.

Bergman, the ABC newsman, said Glenn intimated to him he believes he could off more service to the country in public life, and that his age would be against him in chances for future space flights.

Bergman also quoted Glenn as saying he had hoped to make at least one Gemini space flight but felt he would be too old to get the nod when the project is ready.

The Washington bureau of the Cleveland Plain Dealer quoted an unidentified Glenn supporter as saying the astronaut plans to make the announcement Friday. But the spokesman declined to go on record until he had some "final word" from Glenn.

Young, who is 74, already has announced that he will seek re-election, although some Ohio Democrats claim his chances for victory would be slim.

Rep. Wayne L. Hays of Flushing, Ohio, has been the most outspoken critic of Young's candidacy. Hays said he believes Young is too old to run again.

Other Democrats have expressed the belief, however, that if Young is nominated he would face a tough if not futile battle this fall against Rep. Robert Taft Jr., son of the late Ohio senator and grandson of former President William H. Taft.

Taft and veteran Secretary of State Ted. W. Brown, an adept vote-getter in his own right, are the only announced candidates for the Republican senatorial nomination.

## Leetonia Lutherans Meet at Parsonage

ing office.

Schlesinger, historian of the Franklin D. Roosevelt administration, is expected to follow Sorensen through the White House door—although Johnson repeatedly has urged him and other Kennedy aides to remain.

The former Harvard professor has emphasized his belief that every president should be surrounded with assistants of his own choosing. And he obviously does not think that Johnson, left to his own designs, would have chosen him for the White House staff.

## Washingtonville Ruritans Host For Meeting

WASHINGTONVILLE — Forty - one persons were present when Washingtonville Ruritan Club met Wednesday at the Methodist Church. Robert Sanders presided.

The club was host to district officers who gave a school of instruction to 1964 officers from five clubs.

Present were the following district officers: Ralph Schneider of North Georgetown, district governor; William Ferguson of RD 3, Salem, lieutenant-governor; and Howard Showalter of Carrollton, secretary-treasurer.

Officers from the following clubs attended: Greenford, 17, Goshen Center, 3, Leetonia, 4, Maple Ridge, 5, and Washingtonville, 13.

mings swept the country. From all sides—civic and professional groups, labor unions, students, some of the clergy and the man in the street—came demands for a new treaty providing for ultimate nationalization of the canal rather than the perpetual control the United States has under the 1903 treaty.

President Johnson was under opposite pressure from Congress to stand fast. The White House has said it would not yield basic American rights in the Canal Zone.

In Panama new violence appeared to threaten and the U.S. Army moved small units up to the Canal Zone border.

collided in the parking lot at City Hospital.

Daniel Belich, 40, of 1560 Ridgewood, was stopped for the red light at the intersection of E. State St. and S. Ellsworth at 11:35 a.m. when his car was struck by another operated by Kathleen L. Smith, 28, of 1070 W. Perry St.

At 3:22 p.m. on S. Ellsworth at Franklin St., a parked car owned by Earl S. Dehn Jr. of North Canton was struck by a truck driven by Jerry L. Dilley, 25, of Magnolia.

## Mrs Greene Heads 'Mothers March'

Mrs. Richard Greene will be coordinator of the annual "Mothers March" for the March of Dimes campaign to be held the latter part of January. Chairmen under Mrs. Greene will be Mrs. Ida Austin, Mrs. S. E. Eskay and Mrs. John Seroka. Mrs. George Phillis is chairman of the Rural Mothers March.

Containers for contributions to the campaign have been placed in the downtown business establishments and plans are being made for local labor unions to canvass the downtown area this weekend. Veterans organizations will assist in the project Jan. 25-26.

Funds collected this year will aid in research for the cause and cure of birth defects and arthritis, as well as assist those stricken with polio.

Louis J. Raymond is chairman of the 1964 campaign.

SCIENCE IN AUTHORITY by Lancelot Hogben. A collection of essays by the man who is famous for several of his books which present branches of science clearly for the layman. Here he discusses the harm that others have done to the ideas of Darwin, he takes apart several other theories now prevalent about various scientific subjects.

RADIATION, GENES, AND MAN by Bruce Wallace. This little book explains in simple terms the effects of radiation on genes, what mutations are, where the dangers lie in adding radiation to the atmosphere. The latest findings about DNA are used in making the arguments.

PRINTING AS A HOBBY by J. Ben Lieberman. An attractive book which makes it look like fun to make a small press you can print personal materials on.

ALL THE SCULPTURE OF MICHELANGELO by Franco Russoli. Descriptions and clear black-and-white photographs of the work of one of the masters of the art.

COIN COLLECTING IN A NUTSHELL by Ted G. Wear. This is a readable and up-to-date guide on collecting American coins.

POETRY IN ENGLISH edited by Warren Taylor and Donald Hall. Two college professors have made up a collection of poetry written in English which is heavy on he side of the modern poets—quite a few of them still living and writing.

POUND WISE by Sir Osbert Sitwell. A collection of essays from the many written by the most gifted writer of this very eccentric but witty and charming English family.

HEADFIRST IN THE PICKLE BARREL by John Rolfe Burroughs. Growing up in a small town in the Rocky Mountains of Colorado was an eventful occurrence if all boys had as much fun as this author.

To REMEMBER FOREVER by Gladys Hasty Carroll. Mrs. Carroll has edited and published a journal she kept while a student in a small New England college in the years 1922 and 1923, and already showing signs of becoming the fine writer she turned out to be.

MAIN STREET, ITALY by Irving R. Levine. Mr. Levine has been N.B.C.'s news correspondent in Italy since 1959. He is a man who not only observes life, he literally soaks up the atmosphere of the places he lives in, and he can impart information to others as effectively as he obtains it.

TO LIGHT A CANDLE by James Keller. The founder of the Christophers writes his autobiography. It is, of course, the story of the organization as well as of the individual.

BASEBALL'S GREATEST PLAYERS TODAY by Jack Orr, editor. There are twenty four of the current great baseball players included in this small book. It is easily read and written by different sports writers.

HERMANN OBERTH: FATHER OF SPACE TRAVEL by Helen B. Walters. Dr. Oberth has been working with rockets and dreaming of space travel since 1931 and even before. He is one of the scientists who worked on V2 rockets during World War II and is now at the Huntsville, Alabama Arsenal.

FIRST PERSON RURAL by Hodding Carter. Personal reminiscences by the famous former owner and editor of the newspaper in Greenville, Mississippi which could always be counted on to be a voice of reason and right in a country where all else seemed to be emotion and prejudice.

TWO LIVES by Peter Marshall. A young Englishman writes about how it feels to get polio at the age of twenty two, and to end up so crippled that you can move only your left hand.

FORD: DECLINE AND REBIRTH 1933-1962 by Allan Nevins and Frank Ernest Hill. This is the third volume in this carefully delineated study of a man and an industry so typical of modern America.

Reference:

THE SAINTS edited by John Coulson. This is a concise biographical dictionary, its contributors all being English. The book is illustrated with many paintings and photographs of sculpture. Many of the paintings are reproduced in color.

FICTION

AGAINST HEAVEN'S HAND by Leonard Bishop. An airplane is wrecked in rugged terrain in the Northwest and all aboard are killed except seven blind passengers. The story is involved with the impact of this strange circumstance upon each of them.

THE LOST AND THE FOUND by Ann Chidester. A migrant worker's daughter is raped and murdered in a California valley and we see the effects of this on all the valley residents.

MORNING OF A HERO by Burke Boyce. Mr. Boyce here presents George Washington as a teen-ager and young man in the same sprightly fashion as he did his war years in his earlier successful novel "Man From Mount Vernon."

THE NEW MOON WITH THE OLD by Dodie Smith. The story of Jane Minton and the four young people she goes to serve as secretary-housekeeper—what happens to all five of them after the father has to leave the country without making any provisions for them.

THE BIG BRASS RING by Don Tracy. The story of the rise and fall, through alcoholism, of a great athlete.

## Erhard, Home Seek Ways to Ease Tension

LONDON (AP) — West German Chancellor Ludwig Erhard said he and Prime Minister Sir Alec Douglas-Home agreed today to search cautiously for ways to ease tension with the Soviet Union.

Erhard told newsmen that his discussions during the two-day visit with the British "ended in full harmony." The German leader said the status quo should not be changed in Germany and Berlin in a sense negative to the Western world.

"There are no questions on which we had genuine differences," Erhard said. "Of course, on some points there was a difference in shading."

Erhard told a news conference the problem of German reunification will be further discussed by the allied ambassadors' steering committee in Washington.

He and the British prime minister agreed on the idea of a visit by Queen Elizabeth II to West Germany to help kill any lingering animosities from two world wars. Details, however, were not fixed.

## Sailor Kills Mother, 2 Younger Brothers

HIGHLAND PARK, N.J. (AP) —A 19-year-old sailor killed his mother and two younger brothers with a claw hammer Wednesday, police said.

The youth, John V. Cheetham, told a magistrate as he was being arraigned: "I'm guilty." An argument with his mother, Ilga, 41, apparently over money, touched off the slayings, police said.

The mother's body was found on the kitchen floor of the family apartment. Cheetham's brothers, Douglas, 10, and Andrew, 6, were found in a bedroom.

Cheetham, a third class petty officer, was separated from his ship, the Salisbury Sound, in San Diego came home on leave Jan. 1.

## E. Liverpool Lawyer Reprimanded by Court

COLUMBUS, Ohio (AP) — George A. Aronson, East Liverpool attorney, has received a public reprimand from the Ohio Supreme Court on a complaint by the Columbiana County Bar Association.

The action Wednesday stemmed from Aronson's handling of damage suits resulting from an accident July 2, 1959, in which Hugh Smith and Sylvia Merriman—brother and sister—were involved.

Records showed that after recovering $500 for the brother under his sister's policy, Aronson brought suit against the brother for $25,000 damages. Smith and his sister were insured under separate policies.

## 22 Interviewed for Service Officer Job

LISBON — Twenty-two persons were interviewed Wednesday by the Soldiers Relief Commission for the post of Mrs. Virginia Mast, service officer who has resigned to move to Florida where her husband has accepted a position.

The board said there are 26 applications thus far for the job.

The board plans to meet again next Wednesday night.

## Postmarks To Drop Cancellation Times

WASHINGTON (AP) — Beginning Feb. 1, postmarks will no longer tell the time of day that mail was canceled.

In its place will go a simple "a.m." or "p.m." designation, Post Office Department officials said.

## Elkton

Miss Cindy Cairns of Calcutta, visited at the home of her classmate, Karen Woodburn.

Elkton PTA, scheduled for Monday, was postponed because of inclement weather.

John Woodrow, son of Mr. and Mrs. Kenneth Bettis, was baptized Sunday, at the Elkton Methodist Church.

The Somers Islands is another name for the Bermuda Islands.

COMELY COTTON QUEEN —Katy Sue Meredith, 21, of Andalusia, Ala., is this year's "Maid of Cotton." A home economics major, she'll make a world tour in behalf of Uncle Sam's cotton industry.

# Truck Firms, Hoffa Okay National Pact

CHICAGO (AP) — James R. Hoffa's International Brotherhood of Teamsters and the nation's truckers reached agreement on an unprecedented master contract early today affecting more than 400,000 workers, averting a strike for last midnight.

Hoffa said the contract, which he described as the first national labor agreement reached without a major strike, would bring more than 400,000 teamster members and 400 locals into one single bargaining unit.

"This is one of the finest contracts ever negotiated in the United States," Hoffa said at an early morning news conference.

"Everything is fine," he said of negotiations with the Trucking Employes, Inc. "All you have to be is patient."

The three-year contract, which expires March 31, 1967, provides for a 28-cent pay increase spread over the contract period. Truckers' salaries will increase 10 cents the first year, 8 cents the second year and 10 cents the third year.

The average industrywide pay for Teamsters' truckers now is about $3.17 per hour.

The contract still must be ratified by the rank and file membership of the Teamsters.

Negotiations became snarled earlier this week when the truck lines' negotiating team, headed by C. G. Zwingle of Oakland, Calif., insisted on a 10-8-8 salary table.

Hoffa said that the wage-fringe benefit package would total 45 cents per hour. Zwingle agreed that Hoffa's estimate was "reasonably close," but did not elaborate.

## 'Accidental' Ruled In Man's Death

County Coroner William A. Kolozsi ruled accidental death today in the case of Charles Wallace, 70, of Salineville who died in East Liverpool City Hospital Tuesday.

Wallace succumbed of burns suffered in a blaze caused when he tried to light a cigarette while under an oxygen tent, the coroner ruled. Dr. Kolozsi said second and third degree burns covered 25 per cent of the victim's body.

The coroner said the victim "sneaked" cigarettes, although he had been warned repeatedly about smoking near the oxygen tent.

Wallace entered the hospital two weeks ago with a serious heart ailment.

# Bob Kennedy In Tokyo for Sukarno Talks

TOKYO (AP) — Atty. Gen. Robert F. Kennedy arrived in Tokyo today for talks with President Sukarno of Indonesia in an effort to cool Indonesia's hostility toward the new Federation of Malaysia.

The late president's brother arrived by Air Force jet with his wife, Ethel. It is his first assignment by President Johnson as a diplomatic troubleshooter.

Kennedy said he is counting on a "bond of friendship between the United States and Indonesia" to help ease the dispute. He meets with Sukarno Friday.

The 38-year-old attorney general added, however, that the Malaysian crisis is "best decided, resolved, determined by Asian countries, not by ourselves."

Kennedy met Sukarno in 1962 on a Far Eastern tour for his brother. Although Sukarno has been openly critical of the United States, he is said to respect Kennedy's honesty and ability.

Kennedy's personal efforts in the Malaysian dispute will take him around the world to meet with all the principals. Monday, he flies to Manila to confer with President Diosdado Macapagal of the Philippines. He is also expected to talk with Malaysian Prime Minister Tunku Abdul Rahman in Kuala Lumpur and British Prime Minister Sir Alec Douglas-Home in London.

Under British sponsorship, the British territories of Malaya, Singapore, Sabah (British North Borneo) and Sarawak formed the Federation of Malaysia last September. From the start, it was opposed by the Philippines, which claims Sabah, and Indonesia, which occupies the rest of Borneo.

Sukarno, by far the more militant opponent, vowed to crush Malaysia, calling it an instrument of British neo imperialism. Philippine opposition to Malaysia has been milder.

**Saddle Horse Training**

A Columbiana County 4-H saddle horse training meeting will be held Monday at 8 p.m. at Mt. Nebo Grange hall, state route 45, north of Lisbon, according to Robert Lewis, 4-H associate agent.

Harold Kline, area field man for the Eshelman Feed Co., will be present to discuss the proper feeding of horses and ponies. This meeting is the first in a series of four meetings about the care of horses planned for youngsters with 4-H saddle horse and pony projects.

Any persons interested in the 4-H saddle horse program is welcme to attend this meeting.

**Tractor Club to Meet**

Columbiana County 4-H Tractor Club will hold its first meeting Jan. 31 at 8 p.m. at the Gause Implement Co., Route 172, near Guilford Lake.

Charles Gause, adviser of the club, said that membership is open to all boys between the ages of 10 and 21 interested in tractors. During the ten - week period that the club will meet, discussion of the various phases of tractor operation, maintenance, and safety will be covered. Each year a tractor rodeo is sponsored by the group, with most of the members participating.

In the past the number of youngsters participating in this program annually averages from 40 to 50 from all communities of the county. To date there have been over 1,100 boys took part in this program which is starting the 15th year of operation.

If anyone is interested in participating in this program, they should attend the first meeting to sign up and get their books, Gause said.

# Ex-Smokers

By HAL BOYLE

NEW YORK (AP)—The cigarette addicts who used to get smoke in our eyes now simply get in our hair.

Since they swore off the filthy weed as a result of the present health scare, they have become matchless bores.

Mark Twain pointed out long ago there was no problem in quitting smoking. "I've done it a thousand times," he said.

But the current crop of swearer-offers is making a big production out of it. If you look around your own social circle, you may find the following types of ex-smokers familiar—perhaps only too familiar:

The Crusader — Not content with giving up smoking himself, he wants everyone else to quit, too. "If I had my way," he mutters darkly, "I'd put a torch to every tobacco field in the country."

Secret Backslider — He denounces nicotine in public, but several times a day sneaks out to the office washroom and smokes three cigarettes like crazy. Then he chews a couple of mints so no one can smell tobacco on his breath.

Rationed Abstainer — This cheapskate hasn't quit smoking cigarettes. He has just quit buying them. By the end of the day he has put away three packs—all borrowed. He borrows the matches too.

Confessor — Like a reformed drunk this fellow is compelled to brag to one and all about how awful he used to be before he saw the light and changed his ways. "I was a four pack a day man," he says, holding on to your lapel. "But I finally shook it. Haven't had one since 5:33 p.m. yesterday."

Switch Artist—He gave up cigarettes, and took up pipe smoking. "I don't seem to have the hang of it," he moans. "In the last week I've burned holes in two of my best suits."

Substituter — After cigarettes went out of his life, sweets came in. He went from one candy bar a day to six, then went on to malted milks. In a month he gained 15 pounds. He no longer worries about his lungs. "I'm so fat now I can hardly breathe," he complains. "Unless I get this weight off I'll probably get a heart attack. What's a good diet?"

Liar—at the office he thumps his chest and brags, "Don't miss 'em a bit. Never felt better in my life. Should have done it years ago." But at home he snaps at his wife and children, kicks his dog, and if you look closely at his fingernails you will see they are gnawed down to the first knuckle.

Those who give up cigarette smoking aren't the heroes. The real heroes are the rest of us—who have to listen to them.

Probate Judge Louis Tobin reported today that Columbiana County inheritance and estate assessments amounted to $166,352 during 1963.

The total of inheritance and estate tax assessments for the 88 counties in the state was $29,539,290.

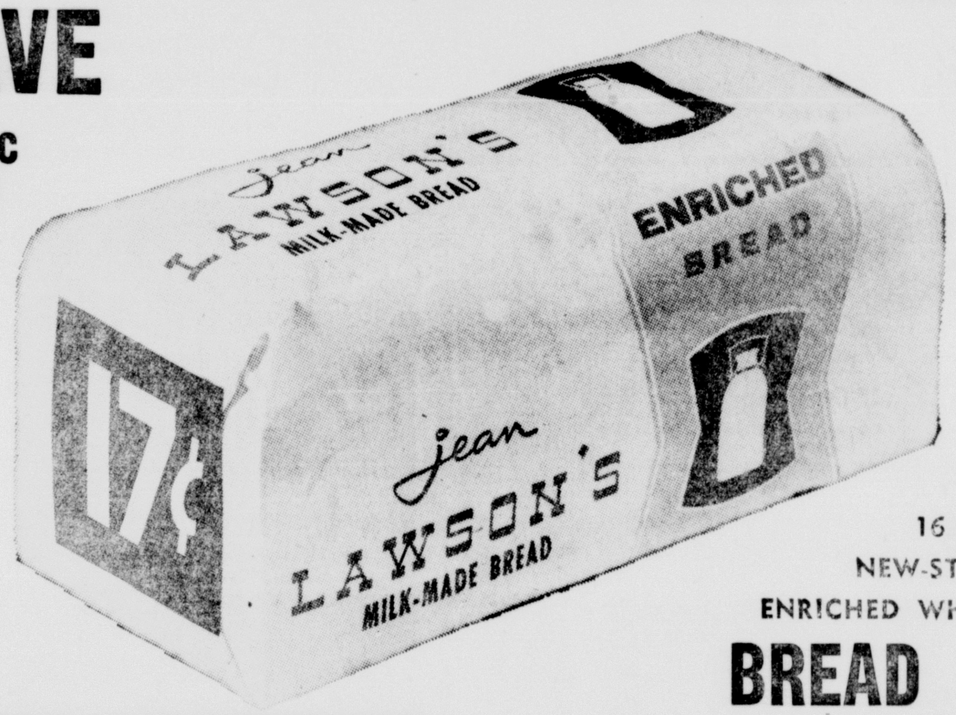

The totals of other neighboring counties are: Mahoning, $581,690; Stark, $835,627; Carroll, $13,364; Harrison, $19,845; and Jefferson, $155,190.

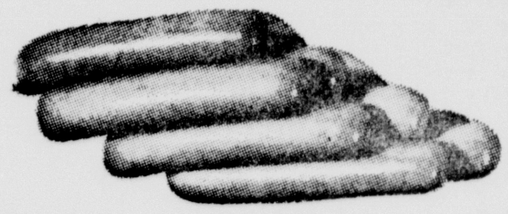

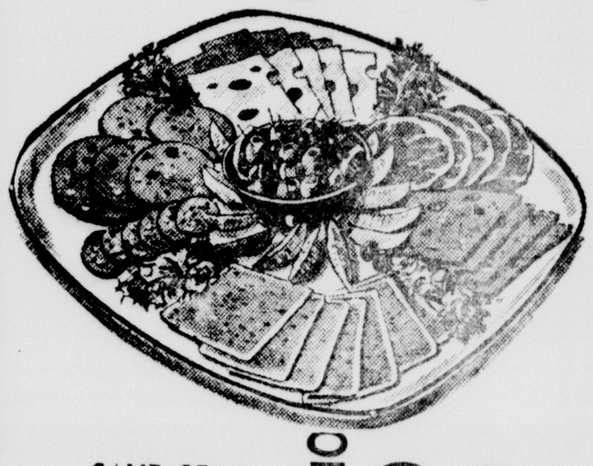

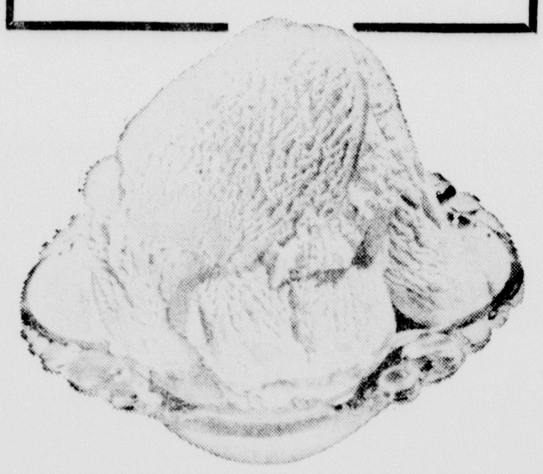

### OPERATORS CAUTIONED

COLUMBUS, Ohio (AP)—The operators of Ohio's county and independent fairs have been cautioned to fill out their annual reports and financial accounts carefully. Otherwise, an assistant to the state agriculture director warned Wednesday, their funds could be held up for 1961.

The caution came from administrative assistant Bruce Gosney at the 39th annual convention of the Ohio Fair Managers Association. The deadline for the reports is today.

## Landers Discusses:

# Teen-Agers And SEX...

**This is the fourth of 10 articles condensed from the new book, "Ann Landers Talks to Teen-Agers About Sex," copyright, 1964, by Prentice-Hall, Inc.**

### WHY NOT GO ALL THE WAY?
### By ANN LANDERS

Oliver Wendell Holmes said, "No generalization is worth a damn—including this one."

So let's avoid generalities and get to specifics. It isn't enough any more for a mother to tell her 16-year-old daughter, "Nice girls don't do that." Her daughter may just happen to know some nice (but stupid) girls who do.

What am I saying? That a girl can be nice even though she goes all the way? Yes. The girl can be nice — but the girl is not very bright.

I may be criticized by some religious leaders for taking this position, but those who hope to frighten teen-agers into line with hell-fire speeches had better wake up and smell the coffee—because the kids aren't buying.

-:-

**RELIGIOUS TRAINING** and strick adherence to moral codes may keep some teen-ager from going across the line, but too many teen-agers want other reasons. The lofty concept that virtue is its own reward "makes a nice embroidered sampler—to be framed and hung in grandmother's kitchen" wrote one teen-ager.

Even the lovely word "chastity" has an old-fashioned ring to it — like "chaperon" or "Minuet in G."

Only a fool would tell a teen-ager to stop thinking about sex. You may as well tell the sun to stop shining. Teen-agers are thinking about sex, and they will continue to think about it. What they need is sound informaion so they will know HOW to think about it.

For too many years the subject of sex among teen-agers was soft-pedaled. There was a widely held theory that frank discussion might excite undue curiosity.

-:-

**"DON'T GIVE** the kids ideas" is the way it was put.

Well, the kids already have ideas, and many of them have put the ideas into practice. Adult silence serves only to widen the gap between two generations which already are too far apart. I am a strong advocate of open discussion — and the more open the better.

The cold, blunt facts are these: I know from the hundreds of letters I get each week from young people that a shockingly high percentage of high school students, by the time they reach their junior year, have had some experience with the opposite sex.

By "experience" I mean more than necking and petting. I mean sexual relations.

Most boys view sex differently than girls. The boy in his teens rarely sees any connection between sex and love. He often has no emotional investment in the girl. He merely is responding to his biological urge. His attitude is: "Why not? A normal guy has to."

It is not uncommon for a teen-age boy to use sex as a "proving ground" or a prop for his ego. He may try out a girl just to see if he can make the grade because he has heard other boys have.

-:-

**SEX FREQUENTLY IS** used not only by teen-agers but by adults as an escape from a world which they find difficult and demanding. Sex provides them with momentary excitement, a feeling of importance and even power.

It diverts the mind from the central proglem — a nagging feeling of inferiority — real or imagined. In other words, some people use sex as others use alcohol or narcotics.

Teen-age girls who indulge promisucously in sexual relations do so for a number of reasons. Some girls foolishly believe it is the key to popularity. They fear if they refuse to give the boys what they ask for, the boys will not invite them out again and will turn to someone who is more accommodating.

And then, of course, there is the pitiful little mouse who has no confidence in her ability to hold a boy's interest. She believes the only way she can show a fellow a good time is to allow him to take liberties with her.

-:-

**THE GIRL** who goes steady is pressured frequently into sexual experimentation by her boy friend, who persuades her it's the way to "prove your love." Girls who write to me with this problem get my stock answer:

**"Tell him no dice. Ask him to prove his love by exercising some manly self-control. A boy who makes such demands on a girl is not interested in her. He is interested primarily in satisfying his own selfish desires.**

**"Sex relations outside of marriage prove nothing —except that the people involved had neither the self-discipline nor the good sense to wait."**

Another ever-present hazard of sexual relations is venereal disease. I have devoted a later chapter to this problem because it is a serious one among teen-agers — and one which, unfortunately, is discussed too rarely because of a naive conviction that "nice" people don't get VD.

-:-

**MOST TEEN-AGE GIRLS** who have sex relations before marriage are filled with romantic fantasies of one sort or another. They identify themselves with heroines in love novels or with movie actresses or with adults they believe are leading exciting lives.

Usually the girl persuades herself that the boy cares a great deal for her, so what she is doing really isn't wrong after all. If they're going steady, she tells herself, "I'm crazy about him and we plan to get married eventually so it's perfectly all right."

### Can't Escape Guilt

These girls don't escape the guilt, even though they attempt to justify their out-of-bounds behavior to themselves and sometimes to others. They verbalize the notion, "It's perfectly all right," but the carefree facade is only a pose.

These girls know (and suffer from the knowledge) that society does not approve of their behavior and that they are living outside the bounds of convention.

Call it narrow - minded," "mid-Victorian," "Puritanical" or whatever may come to mind, but sex outside of marriage is unacceptable in our society This conflict can play havoc with the nervous system — and often does.

-:-

**NOW LET'S** get down to cases. What IS wrong with going all the way?

Aside from the moral issues which too many teen-agers long since have discarded as being out of date), the best reason is this: **It isn't worth the risks!**

Sex outside of marriage is a bad bargain when you measure what you stand to gain against what you stand to lose.

What are the gains? Popularity? Nonsense! The pushovers may get a flurry of attention, but it doesn't last long. The word gets around, and soon the free and easy "makeout" has a rotten reputation.

The boys may phone her when they are in the mood for fun and frolic, but this is a far cry from popularity. Better call it availability.

-:-

**WHAT IS LEFT** then? The pleasure of the act itself? Exactly how much pleasure is there for illicit beginners? DO teen-agers find sex as heavenly and as exciting as they thought it would be? The answer is NO. It's likely to be a disappointment.

A clinic which serves unwed mothers in a large Eastern city made an interesting study of premarital sexual relations. This question was asked of the unwed mothers: "Did you find the sex experience pleasurable, disappointing or unpleasant?"

Only 20 per cent described their sex experience as pleasurable. Fifty per cent said it was disappointing. The other 30 per cent described it as unpleasant or revolting.

Now, what can happen to teen-agers who become involved sexually? Many things. And they don't always happen to other people. Sometimes they happen to you.

### The Dangers

Speaking specifically: Girls get pregnant. And in the last 20 years the percentage of unwed mothers has tripled. I don't mean number — I mean percentage.

In 1961 one out of every eight girls who married was 17 years of age or younger. An educated guess indicates that approximately 40 per cent of these girls were pregnant when they married. The divorce rate for brides under 20 is three times the average for all age groups.

Teen-agers would do well to consider ALL the possibilities. The kids who figure "if something happens we can always get married" had better understand what this means.

-:-

**TOO OFTEN** it can mean broken - hearted parents, a sudden end to education, and being saddled with responsibilities of manhood and womanhood at a time when you should be enjoying teen-age fun. And you can wind up hating your wife or husband.

Every now and then I get a letter from some knucklehead who tells me if I really want to befriend teen-agers, I should give them some helpful hints on how to avoid pregnancy instead of being so doggone Puritanical and unrealistic.

To you teen-agers who think you can "get away with it" if you are careful, I would like to say this:

**There is no 100 per cent foolproof, sure - fire way to avoid pregnancy. Anyone who thinks so is sadly mistaken.**

**Teen-agers should be fully aware that every time they indulge in sexual relations they take a chance on bringing another human being into the world.**

**Teen-agers who are having sexual relations should ask themselves one question: "What will we do if the act should result in pregnancy?"**

I am well aware that some teen-agers are not in trouble at this moment — and they never will be in trouble.

-:-

**THEY ARE** the level-headed and clear-eyed ones who have grown up with the knowledge that the human body has dignity and that the pleasures of the body have a higher purpose. Such teen - agers are not in danger of fouling themselves up.

No one can go along on dates with you and see that you stay in line. The best policeman of all is your own set of standards. The most dependable of all compasses are still common sense and good judgment.

We must make our own decisions — and our own choices.

**NEXT: How to help yourself stay out of trouble.**

QUEENLY VISIT — Queen Frederika of Greece will arrive in New York City on Jan. 21 and receive an honorary degree from Columbia University the next day. The Queen intends to spend 17 days in the United States.

DOWN-IN-MOUTH — A local wag at Decorah, Iowa, apparently doused the fire in the chief's peace pipe with no smoking sign hung on portrait at local Luther College.

## HOT WAR AND PEACE

IN SOUTH VIETNAM, the favorite book should be "War and Peace." Life for the 15 million persons of South Viet Nam has been a pendulum, swinging between war and peace. A village may be quiet one day and a battlefield the next with Viet Cong guerrillas battling government troops for a patch of jungle. In the vital Mekong River region, the Reds' main target, bloody encounters are a fact of life.

# HOOP TALK

*By . . . Double Dribble*

It's nice to see that you weathered the storm, basketball fans! We need your kind here in Nome!

Well, that time of the week is here again, and we must not dwell on the weather. . .Let's talk about the court sport that requires a hoop at both ends of the floor. . .Basketball!

Two nights in a row on the card again this week. . .First a trip to the Land of the Red Dragon on Friday night. . .Then the Falcons will come calling Saturday night. . .Needless to say, we will discuss the Niles Unit first. . .Again, the Quakers will take to the floor with a height disadvantage, however, this time it will somewhat less than usual. . .This team has to go with either 6-3½ or 6-2 Jr. at Center, 5-11 and 6-1 at forwards, 5-8 and 5-6 at guards . . .The last four players are Seniors which would lead one to believe they must have the edge on the Quakers as far as experience would carry them. The Red Dragons have won 2 and lost 7 to date. This is not the type of Record the name Niles brings to mind, but that's it, Honest! This will be a Big contest and as many of the other Big 8 battles have been, will no doubt be a hard fought tilt from start to finish. . .So if you enjoy a good game, don't miss this one. . .It should be a dandy. . .

And now the trip home . . . Dayton Roth's Falcons will bring a 7 and 2 record with them . . . Roth is a School that has been in existance but 5 short years and has the distinction of producing a pretty tough team all 5 of those years. . . The two losses they carry on that record came at the hands of Dayton Belmont, at present number two ranked team in the State, and Dayton Stebbins another highly ranked Squad. . . This team isn't big, in fact it may be the first time this season the Quakers have been able to look another outfit in the eye without getting a stiff neck. . . The starting line up will probably read 5-11, 6-1, 5-7, 5-7 and 5-10. Four of these boys are Juniors, but two of them have had 3 years Varsity experience, having started as Freshmen.. . The Club has about a 48 percent shooting average for the year. They are aggressive, fast, good shooters. . .What more could any coach ask for?

All in all, it should be a interesting week end for you basketball type fans. . .Providing the snow doesn't get into the act. . . .again. Get 'em Quakers!

And now I bid each and every one of you a good evening. . . and an especially good evening to you Mrs. Fisher.

# Salem Faces Hot-Shooting Dayton Roth Saturday

## Quakers Visit Niles Friday

### Lantz Hurts Back, Should See Action

Possibly the hottest shooting club Salem will face all season is Dayton Roth, the Quakers' opponent here Saturday night.

"We are a good shooting team, averaging 48 per cent of our shots this season," said Ed Norris, who has been coach of Falcons since the school's inception five years ago.

"The only teams able to beat us, and only because of a height advantage, were Dayton Belmont 87-67 and Dayton Stebbins 86-75," declared Norris.

He pointed out that Belmont was rated number two in the first AP poll which was published Tuesday.

In that survey, defending state champion Columbus East (7-1) was fifth, Akron North (9-0), seventh; and Massillon (7-2), 13th. The Quakers lost to all three powerhouses.

Canton McKinley, selected number one, will entertain the Red and Black Feb. 15.

-:-

**ONLY ONE SENIOR** Paul Sumlin, 6-1, a letterman, is on the Falcons' starting unit. Juniors make up the rest of the first five.

Three - year veterans Tony Bass, 6-0 forward and Mike Pullen, 5-7 guard, get support from Lonnie Gilbert, 5-11 forward; and Berbie Walder, 5-7, or Kurtix Norvell, 5-10, at the other guard.

Tallest player on the team is Leonard Swanigan, 6-3 junior. The Falcons are extremely fast and clear more than their share of rebounds in most contests.

Dayton Roth has won seven games, including its last five in a row. The Falcons have beaten Trotwood, 66-65; Arcanum, 89-61, Wright-Patterson, 85-49; Fairview, 78-67; Wilbur-Wright, 93-75; Dayton Stivers, 73-49; and Springfield North, 92-70.

A jolt to the Salem squad came during practice early this week, when sophomore sensation Jim Lantz injured his back.

He wasn't able to drill Wednesday, and Coach John Cabas isn't going to have his star workout today.

It is expected that Lantz will be in uniform at Niles Friday night, for the Quakers Ohio Big 8 tilt with the Red Dragons and he should see action.

The Red Dragons (2-7) have had a tough time of it, and have lost their last six in a row.

Coach Joe Bassett lost all his starters last year and has been rebuilding this season.

-:-

**NILES PROBABLE** starting lineup will have seniors Jim Berline, 5-11, and Dave Allen, 6-1, at forwards; and Bob Laricca, 5-6, and Henry Kover, 5-8, at guards.

Either Ron Miller, 6-2, or Dick Corea, 6-3½, will be at center. Both athletes are juniors.

Laricca, quite a dribbler, is the floor general and top scorer for the Red Dragons with 74 points. Berline and Allen each have 69 markers.

Salem's probable starting lineup for both clashes will include Chuck Joseph, Wayne Washington, Rick Gregg, George Begalla and Lantz.

SALEM CHEERLEADERS — Despite the lean football season (3-7), and so far the 1-7 record in basketball, Salem's pretty cheerleading corps have displayed plenty of spirit, and stuck behind their school teams with pride and distinction. Members of the squad pictured are (l. to r.) Judy Pelly, Bunny Kearcher, Carol Porter, Mitzi Garrett, Diane Everhart and Darlene Smith.

## Bearcats 41-Game Win Streak At Home Snapped; Lose Fourth

By TED MEIER
Associated Press Sports Writer

The end of an era seems at hand for Cincinnati in college basketball.

For six straight years, starting with the advent of Oscar Robertson, "the Big O," the Bearcats have swept all before them in the tough Missouri Valley Conference and last March just missed an unprecedented third staight national championship by losing in overtime to Chicago Loyola.

Robertson graduated after the 1960 season and Coach George Smith moved up to director of athletics. But the triumphant parade continued under new Coach Ed Jucker whose teams won a fantastic 82 of 89 games the last three years. Included were winning streaks of 27 and 37 straight.

Now, however, the Bearcats already have lost four games, the most in five years, and the hardest part of their MVC schedule still is ahead. UC still is dangerous and eighth-ranked nationally with nine wins against major opposition, but the Bearcats can't afford any more slips.

The Bradley Braves administered UC's fourth defeat Wednesday night, 87-77, and in the process ended the 'Cats winning streak of 41 on their home court. In fact it was the first MVC game the Bearcats have lost in the fieldhouse.

Joe Strawder, with 33 points, and Levern Tart, with 24, broke the game wide open for Bradley in the second half. All-America Ron Bonham threw in 25 for Cincinnati, but missed his last seven shots from the field.

The fifth-ranked unbeaten Davidson Wildcats, the only other team in The Associated Press Top Ten to see action Wednesday, came through with their 14th straight triumph, a weird 52-49 decision over Richmond.

The Wildcats, ahead 48-45, didn't shoot from the field for the last 13 minutes of play as they went into a deep freeze. Their last four points came on free throws, the last after the final whistle.

Hardin Simmons registered the upset of the night by downing Oklahoma City 87-74 behind Nate Madkins' 28 points. Bud Koper, Oklahoma City star, tossed in 23 before he suffered a cut over his eye late in the game.

Bill Cunningham's 27 points and good defensive work by Bryan McSweeney on Larry Lakins sparked North Carolina to a 79-71 victory over N.C. State while West Virginia and Xavier of Ohio both exploded in the second half to defeat Penn State 84-63 and Louisville 80-79, respectively.

## President Johnson Welcomes Victorious Davis Cup Team

WASHINGTON (AP) — President Johnson welcomed the Davis Cup back to the United States, gave the tennis players who won it a grand tour of the White House and learned he has a tennis court in the back yard.

With the large, 63-year-old silver trophy gleaming on a table in the Cabinet room, Johnson told the young men Wednesday their victory proved they have "the desire for the pursuit of excellence."

On hand for the ceremony were Chuck McKinley and his wife, Dennis Ralston, Marty Riessen, nonplaying captain Bob Kelleher and his son Jeff, and Edward A. Turville, president of the U.S. Lawn Tennis Association.

Johnson said he was pleased that the players—who captured the Cup from Australia last month—were from all parts of the country, especially the two who are products of Trinity University in San Antonio.

This was a reference to McKinley and Frank Froehling, another team member recovering from an operation and not at the White House, who both attended the Texas school. The fifth member of the team, Gene Scott also was unable to attend.

During the tour, McKinley asked the President: "Do you have a tennis court here?"

"I don't think so," he replied, "although right out yonder is where President Eisenhower practiced some golf shots."

Mrs. Pauline Betz Addie, former U.S. and Wimbledon women's tennis champion who accompanied the Davis Cup team to the White House, told the President there was indeed a cement court out there "somewhere under the snow."

"It could be," the President said, grinning. "I've only been here 50 days and I'm not sure just what's in this place."

**DUKE POSED WITH SKIP**

WANTAGH, N.Y. (AP)—Skip Orr, Navy flanker back who caught a record nine passes against Texas for a Cotton Bowl record, has a number of sports items in his home here.

One of them is a picture taken when he was 10 years old in 1953. It was autographed by Duke Snider, then with the Dodgers.

It was an easy autograph to get. Skip's father, Edward Orr, was a police sergeant in charge of the detail outside Ebbets Field where the Dodgers used to play.

## Tri-County Race To Get Tougher For Poland; United Faces Canfield

From now on it will be no easy task for Poland in the tough Tri-County League.

The Bulldogs, unbeaten in loop action with five straight victories, face strong Louisville at the Leopards' den in one of the area's outstanding games of the weekend.

Canton McKinley, ranked No. 1 in the initial AP poll, risks its unbeaten streak (10 - 0) at Canton South (9-1).

In Ohio Big 8 Conference competition, Salem treks to Niles and Steubenville entertains East Liverpool.

-:-

**GREENFORD WILL** try to snap its 10-game losing mark at North Lima.

Coach Jack Mills, since returning to the coaching field, has made quite an impression on United fans.

He has led the Golden Eagles to six victories in nine starts, including the last three in a row.

United goes after win number seven when it entertains Canfield, and it shouldn't get much trouble from the Cardinals.

-:-

**LISBON (8-1)**, after suffering its first loss of the season last week, hopes to start the second half of its schedule with a victory when it travels to East Palestine.

Leetonia (3-5) will likely force Columbiana (7-2) to make one of its better showings at the Clippers' court. Sebring travels to Minerva.

McDonald (8-0), leading the Inter-County League, takes on Mathews.

The rest of Friday's slate finds Western Reserve at Mineral Ridge, Jackson-Milton at Springfield Local, West Branch at Southern Local and Beaver Local at Wellsville.

-:-

**SATURDAY'S CARD** will feature Tri-County League action with the Columbiana - Louisville clash about evenly matched. Both schools are 3-2 in loop competition.

Minerva will test the tall, talented Lisbon squad; Poland treks to Leetonia, and East Palestine travels to Sebring.

Salem entertains a young, experienced Dayton Roth, which has posted a 7-2 record so far, losing only to the top two teams in Dayton this season.

The rest of the slate finds Youngstown Ursuline at West Branch, Woodrow Wilson at Canfield, Greenford at McDonald, Mineral Ridge at Lowellville, United Local at North Lima, Western Reserve at Lordstown, and Springfield Local (Jefferson) at Beaver Local.

## 348 Pros, Amateurs Tee Off In Crosby Golf Event Today

By DICK BARNES
Associated Press Sports Writer

PEBBLE BEACH, Calif. (AP)—Bing Crosby's National Pro-amateur Championship—one of golfing's most unpredictable events—opened today with conditions ripe for a tournament record score.

A field of 174 pros teed off in the $60,000 competition. Each was paired with an amateur in the concurrent best-ball pro-am battle.

Predictions of good weather through at least Saturday heightened chances that Billy Casper's tournament record of 277 might fall. A field including most of golf's top names further increased the record possibility.

Al eiberger, among the hottest professionals in late 1963 and early 1964, predicted it will take under 280 to win if the weather holds good.

The field was split in thirds—one group each at Cypress Point, Pebble Beach and the Monterey Peninsula courses. All are par-72 layouts dotted with many traps, sand dunes and shot-wasting tangles of rough.

Despite good weather last year, Casper's winning score was only 285. He set his record in 1958 and only once since then has the winning total dipped below 282.

Much attention was focussed on the 1964 debut of Jack Nicklaus, 1963 PA and Masters king who delayed his start to get a rest. Arnold Palmer was trying to erase memories of the 1963 Crosby when he played one stretch of seven holes seven-over-par and finally was disqualified for erroneously playing a provisional ball after rapping a tee shot into a tide pool.

Gary Player is the only member of golf's Big Three not on hand. He stayed in South Africa for the arrival of his fourth child. Art Wall and Paul Harney, winners of 1964's other tournaments and 1963 Open champion Julius Boros also drew attention.

The field will rotate around the three courses for the first three rounds. The 50 low pro-am teams and pros in money comround at Pebble Beach before a national television audience.

CHEVY-VAN!
Chevrolet's new low-cost quality delivery truck!
This introduces you to Chevy-Van—our new economy delivery truck.
It has a low price tag, over 40 sq. ft. of completely usable flat floor 7½ ft. long, the engine up front, and a lot of quality features which make it a better buy. The body and frame-floor are welded together. The truck is strong, rigid, stable. Doors are double-wall construction.
Chevy-Van has unusual resistance to rust and corrosion. Especially vulnerable areas such as front stepwells are galvanized. Sealers are used at all critical joints inside and out. Certain sections are treated with high-zinc-content primers; others with an aluminum-wax preservative.
The windshield is a big flat practical one-piece unit.
The big 90-hp 4-cylinder standard engine is more powerful than some 6s, yet is remarkably economical. If you need more power, Chevy-Van offers a 120-hp six at extra cost. Side doors and rear windows also cost extra.
Last but not least, it's a Chevrolet. Which means that it is built to work for you a long time at minimum cost.

## Wittenberg Still Among Leaders In AP Cage Survey

By The Associated Press

Hofstra the Flying Dutchmen from Hempstead, N.Y., and Kentucky Wesleyan from Owensboro made the most rapid advances in this week's Associated Press small-college basketball poll.

The Flying Dutchmen climbed from ninth to fifth place on the strength of victories over Upsala and Albright, boosting their record to 11-1. Kentucky Wesleyan, an also-ran last week, zoomed into seventh place after making a good showing while losing to Louisville, a major opponent, 72-63.

Evansville, Ind., which held an 11-point lead a week ago, increased its margin to 22 points over Grambling of Louisiana. The next two teams, Wittenberg of Springfield, Ohio and Washington of St. Louis also clung to their positions.

Southeast Missouri moved up one place to sixth with successes against Central Missouri and Tennessee's Martin Branch. Eighth-ranked Western Carolina, Fresno State and Pan American, Tex. round out the Top Ten.

The Los Angeles Angels have Don, Mike and Bob Lee on their roster. All are pitchers, none related.

CONTRASTS — The difference between the way Sonny Liston and Cassius Clay train for their title bout in Miami, Fla., in February is as great as the contrast between the fighters themselves. Heavyweight champion Liston, far left, wears a determined look as he pummels a sparmate at his camp in Las Vegas, Nev. On the right, Cassius fools around with a clown wearing a gorilla costume which "makes him almost as ugly as Sonny" at his headquarters in Miami.

### 2 Boxers Meet In Cleveland Friday Night

# Title Shot Promised Winner Of Chuvalo-Folley TV Fight

CLEVELAND (AP)—A boxer on the ascent and another who needs a victory badly if he is ever to get a shot at the championship describes the combatants for Friday night's televised heavyweight fight between Canadian champion George Chuvalo and Zora Folley.

With youth and a heavier punch on his side is Chuvalo, 26, from Toronto. He won all six of his fights last year, his most recent being an early knockout of Mike DeJohn last September. He is ranked ninth in the world.

Folley, 31-year-old father of seven from Chandler, Ariz., is a 12-year veteran. He was knocked out by Sonny Liston in three rounds in 1960 before Liston became champion.

Folley, ranked No. 6, is a combination boxer-puncher with a 65-6-3 record, including 36 knockouts. Bill Swift Folley's manager, is doubtful that Folley would remain in the fight game long if he loses a place in the top 10. A loss to Chuvalo could hasten his retirement.

Chuvalo never has been knocked down. He has a 25-7-2 record and boasts 19 knockouts.

Jack Nilon, Liston's manager, is expected to be at ringisde for the match Friday. According to matchmaker Larry Atkins here, Liston and his handlers have promised to hold a title fight in Philadelphia in June or July between Liston and the winner of the Folley - Chuvalo Fray. That is, if Liston successfully defends his crown against Cassius Clay Feb. 25.

Odds on Friday's fight have teetered back and forth. First Folley was considered a 5-6 choice, but the latest odds favor Chuvalo by the same margin. Each will weigh more than 200 pounds for the match at the Cleveland Arena, the first big fight here in four years.

The rule disqualifying any fighter knocked down three times in a round has been waived.

The fight will be televised nationally starting over ABC at blacked out.

## Bankers Post 6th Straight, Zahrndt Wins

Undefeated First National Bank rolled to its sixth win, easily knocking off Bud Shaffer 37-57 in City Basketball League action at the Memorial Building Wednesday night.

Ted Thorne went on a 33-point scoring spree to spark Zahrndt Realty to a 84-54 victory over Salem Tech, and Old Dutch edged Coca Cola 64-61.

First National Bank led 24-13 at the end of the first frame, increased its margin to 44-21 at intermission and held a commanding 66-43 spread at the end of the third session.

Bob Carbaugh took scoring honors for the Bankers with 24 points. Ray Oesch collected 20, Bob Hutton, 16, and Sonny Bowman, 12.

Bob Morlan chalked up 14 markers for the losers. Jim Schuster chipped in with 12, and Duane McClasky and Al Lesch had 10 apiece. It was Shaffer's sixth straight loss.

Zahrndt's picked up its fifth win in six starts, while Salem Tech lost for the fourth time in a row.

The winners led all the way by quarter scores of 16-8, 32-18 and 55-35.

Ken McLeamore tallied 16 markers for Zahrndt. Wayne Harris and Ed Votaw had 11 apiece.

Jon Holloway led the losers with 14 points. Ron Crosser carded 12 and George Rish had 10.

Old Dutch chalked up its fourth win in six starts, while Coca Cola dropped its fourth game in six tries.

The winners took a 26-16 lead in the initial period, held a 36-33 margin at half time, fell behind 52-49 at the end of the third stanza, then outscored the losers 9-6 in the fourth frame to tie the score.

Old Dutch canned a basket and four foul shots in overtime to nail down the victory.

Len Daugherty paced the winners with 23 points. Clyde Schoff chipped in with 19. Andy Safkow led the losers with 20 markers. Chuck Greiner netted 18.

# Bradley Upsets Cincy 88-77; OU Ties Miami For MAC Lead

By The Associated Press

Cincinnati's role as a national basketball power took another slip Wednesday night as Bradley invaded the UC field house and became the first Missouri Valley Conference team in history to beat the Bearcats in league play at home.

It also was the first time for a Bradley team to win at Cincinnati, and the 87-77 victory snapped a seven-game losing skein for the Braves.

Joe Strawder had 33 points to lead Bradley, which evened its MVC record to 3-3 Cincinnati led by Ron Bonham's 25 points, now is 2-1 in league play. The Bearcats are 9-4 overall.

In other games, Ohio University downed Miami 67-57 in the Redskins' first loss of the season in the Mid-American Conference. The victory moved the Bobcats into a tie with Miami for first place in the MAC. Each has a 4-1 mark.

Xavier overcame a nine-point halftime deficit to defeat Louisville 80-79 on the Musketeers' boards. Steve Thomas of Xavier, one of the nation's leading scorers, boosted his game average from 30.9 to 31.2 with a 35-point performance.

On the Ohio Conference, Ohio Wesleyan gambled on one final shot but missed as the Bishops dropped a 55-53 thriller to Wittenberg.

Joe Daunic who had 14 points for the night missed the shot that would have tied the score for the Bishops and sent the contest into overtime.

Baldwin-Wallace beat down a late rally by Mount Union to defeat the Purple Raiders 77-69. Roland ordon led the B - W scorers with 27.

In other games, Ashland downed Defiance 88-67 to win its second Mid - Ohio Conference game of the season, compared to a single setback.

Findlay edged Heidelberg 78-72, Gannon (Pa.) defeated Muskingum 74-68, Ohio Northern beat Rio Grande 97-74, and Steubenville posted a 67-50 victory over Geneva (Pa.).

# DOWN on the FARM

**Berry Institute Set**

Columbiana - Mahoning berry producers will participate in a berry institute Jan. 22 from 10 a.m. to 3:30 p.m. at the Washingtonville Methodist Church, according to Don Myers, county extension agent in agriculture.

Everyone is welcome to attend this institute, planned by the Columbiana-Mahoning Berry Committee in cooperation with the Cooperative Extension Service. Delmar Sanor, RD 2, Minerva, is chairman.

Following is the program:

10 a.m. - film "Chemical Strawberry Weed Control."

10:30 a.m. - R. E. Partyka, plant pathologist at Ohio State University will speak on "Berry Diseases and Their Control."

11 a.m. - George McConnell of Mt. Vernon will discuss berry varieties.

11:45 a.m. - business meeting.

Noon - lunch.

1 p.m. - E. C. Pierce, P.B.F. Farms, West Lafayette, will speak on "Our Berry Production and Management Practices."

1:45 p.m. - Herbert Poulton, Ohio Employment Service, will discuss the berry labor situation.

2:15 p.m. - Ed Watkins, area marketing agent, Wayne Lloyd, manager, Salem Fruit Growers, and Joe Less, producer, will speak on marketing views.

3:30 p.m. - adjourn.

**Farmers Tax Guide**

Copies of the 1964 farmer's income tax guide are available from the Cooperative Extension Service office in Lisbon, according to Don Myers, county extension agent in agriculture.

This 64-page booklet contains explanations and examples of proper federal income tax treatment of matters normally arising in the conduct of a farming business. Included in the matters discussed is the new rule on investment credit allowed against taxes when certain new equipment is purchased.

Farmers may choose between two methods of declaring their income tax seturn. They may elect to file an estimate of income tax by Jan. 15, and file a final tax return by April 15; or file a final tax return by Feb. 17, Myers said.

**1964 Bulletin Available**

"Crop Varieties and Corn Hybrids for Ohio" is the name of the new 1964 bulletin from the Cooperative Extension Service office at Lisbon.

This bulletin, edited by Lewis Saboe, agronomist at Ohio State University, is published annually and indicates the recommended varieties for Ohio of wheat, rye, soybeans, oats, barley, grasses, legumes, and Ohio corn varieties.

The bulletin also discusses variety characteristics, disease and insect resistance, and other pertinent information, according to Don Myers, county extension agent in agriculture.

**Booklet on Soils**

For the suburban dweller who has a soil problem in his garden, or the engineer looking for a building site, a recent publication by the United States Soil Conservation Service may come in mighty handy. It is called "Know Your Soul" and explains how soil scientists of the Department of Agriculture are gradually mapping the soils of this country and what these maps mean to every citizen.

A copy may be obtained from the soil conservation service office, located at 517 E. Washington St., Lisbon, Herman L. Reuter, soil conservationist, reported.

A soil is three-dimensional, according to the publication. "It is bounded on the top by the surface of the land, on the bottom by rock, and on the sides by other soils. The first job of the soil scientist is to distinguish between these separate soils. More than 70,000 different kinds are recognized now.

"While the original purpose of making soil surveys was to provide information to the nation's farmers so that they could better take care of its food-producing soil, gradually more and more people in all walks of life are seeing he need to know about soil."

**Trees Available for 4-H Clubs**

Two hundred trees may be secured free of charge by 4-H Club members for reforestation in Mahoning County. A number of species are avilable including Red and White Pine, Norway Spruce, Tuliptree, Black Walnut, and Black Locust, Robert H. Groves, County 4-H Agent reports.

Trees are furnished by the Division of Forestry, Ohio Department of Natural Resources. Application blanks are available at the County Extension Office, 12 W. Main St., Canfield and must be completed by Jan. 30, 1964. Trees will be received in time for 1964 spring planting.

**Cattlemen Study Imports**

Beef imports took some sharp criticism from the Ohio Cattle Feeders Association when that group held its annual meeting at Columbus Jan. 9.

The meeting drew between 600 and 700 persons, the largest attendance in recent years. Observers credited the record crowd to the cattlemen's concern over the effect of beef imports on cattle prices.

Strongest reaction to beef imports came in the form of a resolution adopted by the group. It stated: "We demand immediate action, either by agencies of government or by the Congress, to provide a quota and-or duty arrangement that will greatly reduce the amount of beef imported, regardless of quality."

Bill Jones, Omaha, Neb., secretary of the National Livestock Feeders Association, declared that a position against the present import situation was not isolationism but "merely a desire for more reciprocity in trade relations."

"Our beef trade now is a one-way street," he said, "with the traffic all coming our way."

**Resolutions Adopted**

While imports dominated the discussions, other issues also received the attention of the cattlemen. In their resolutions they also:

1 Reaffirmed their strong opposition to compulsory pricing or compulsory production and marketing controls of either cattle or beef.

2. Expressed opposition to all proposed changes in carcass beef grading and recommended that the U.S. grading service direct its efforts toward achieving more uniformity of grading throughout the country under present standards.

3. Recommended that the personal property tax be adjusted downward and that a state income tax be adopted to offset this loss and to stop any increase in real estate taxes.

4. Supported market deductions for specie committees of the National Livestock and Meat Board, "providing the money is earmarked for use by the specie committees of the board for promotion."

5. Recommended that cattle feeders sell their animals at lighter weights and strive to produce the type of carcass desired through market channels.

6. Urged that more emphasis be placed on basic research in an effort to find new uses for farm produce.

Joe Beam, Port William, Clinton Cunty beef producer, was elected president of the association, succeeding Maurice Jones of Wauseon.

**Spring Barrow Show**

One of the biggest events of the year for Ohio pork producers—the Spring Barrow Show—will be held at the Madison County fairgrounds here Saturday, Feb. 15.

Exhibitors are expected to enter about 500 barrows in competition, says Dr. Richard F. Wilson, Ohio State University animal scientist and secretary-treasurer of the show.

# U.S. Military Activities In the Canal Zone

Important military functions center in the Canal Zone. The U.S. Southern Command — a unified Army-Navy-Air Force operation of 10,000 men — is the top headquarters there and directs U.S. military activities in 18 Latin-American countries and U.S. participation in hemispheric defense efforts.

The Army's School of the Americas and the Air Force's School for Latin-America are military training schools which have graduated more than 19,000 Latin Americans since 1949.

Also located in the zone are the Inter-American Police Academy, an Alliance for Progress project for training Latin-American police officers and the Army's Inter-American Geodetic Survey.

## Is It Robbing Us of Our Freedom?

# What About the 'Tyranny of Psychiatry'?

By WARD CANNEL

NEW YORK — (NEA)—After years of wandering around people's dreams is psychiatry coming out into the real world as a threat to personal rights and constitutiona' freedom?

A ranking psychoanalyst and professor of psychiatry sees cause for alarm.

He is Dr. Thomas Szasz (pronounced sahs) of the State University of New York, consultant to the Syracuse VA Hospital, board member of two professional psychiatric journals, and author of the new book, "Law, Liberty and Psychiatry."

Now, Dr. Szasz has no quarrel with psychiatry practiced on patients who come voluntarily for treatment.

"The danger today lies," he says, "in institutional and public psychiatry practiced in the law courts and on involuntary patients. Under the questionable standards of mental health and mental illness, authorities and so-called psychiatric experts are chipping away at the legal rights and liberties of the individuals in their charge."

-:-

**WILLS ARE BROKEN** daily in the law courts, Dr. Szasz says, because a psychiatrist sees in bequests evidence that the deceased was not socially competent.

"But," says Dr. Szasz, "it is not mental illness to hate your loved ones and cut them out of your will. However, the dead cannot prove their sanity. And nowadays, the living, too, are having a harder time proving their sanity."

In many states, Dr. Szasz says the law proscribing the stigma of mental illness so favors the unquestioned word of a psychiatrist and a legal authority that a flourishing trade has grown up in asylums for people committed out of convenience.

"One finds there," Dr. Szasx says, "husbands whose wives wanted the family business; wives whose husbands wanted their freedom without the mess of a divorce; old folks whose children did not want to take care of them; young people being prevented from marrying or inheriting money."

-:-

**IN CRIMINAL CASES,** the cult of mental illness and its high priests Dr. Szasz points out, jeopardize most seriously the rights of the individuals.

"An individual accused of a crime and held insane by the court," Dr. Szasz explains, "is placed involuntarily in a state institution until he 'recovers.'

"He has, in effect, been imprisoned without a trial. And whether or not he is receiving psychiatric treatment, he is still in jail, deprived of his liberty and his constitutional guarantees. And once you are in, it is not so easy to get out. You do not merely serve your time and go. You must wait for psychiatric approval.

"Psychiatrists and officials concerned with mental health," Dr. Szasz says, "are becoming today judge, jury, investigator, prosecutor and jailer."

By placing more and more crimes and criminals in the category of the mentally ill we are shirking our responsibility to them and at the same time giving up our rights and freedoms—even though we have a real definition of mental health.

-:-

**"PSYCHIATRY,** the law and humanity know that if one man has murderous feelings toward another he is not necessarily insane. Nor is he insane if he acts on those feelings and plans and executes the murder. But if we call him mentally ill we can wash our hands of him and turn him over to the psychiatrists," Dr. Szasz says.

"We are escaping from the troubles of freedom by giving our freedom and ethical choices to the tyranny of therapy."

## Barry Calls For Attack On Handouts

NEW YORK (AP)—Sen. Barry Goldwater, calling for an attack on what he termed "the Santa Claus" of the "government handout," has urged that able-bodied men on relief be put to work for their welfare check.

The Arizona Republican accused President Johnson of making "Santa Clause promises" in his State of the Union message.

Johnson's program adds up to saying "that the bureaucracy in Washington can solve all our problems end poverty and create prosperity," Goldwater said.

Carrying his campaign for the Republican presidential nomination into the home town of Gov. Nelson A. Rockefeller, his only announced rival, Goldwater charged Wednesday night the Democratic party has "reduced rewards for good work and also reduced the penalties for laziness or waste."

He told the Economic Club of New York that the government should investigate "whether the attitude or the action of the small group not participating in the general prosperity has anything to do with the situation."

In his State of the Union message Johnson outlined proposals that would cost about one billion dollars over the next few years to combat poverty.

Johnson also proposed a $97.9 billion federal budget, saying it would cut expenditures $500 million below those of this fiscal year.

Goldwater called that "a fast shuffle of figures" and said Johnson actually wants $2 billion more than Congress authorized for this year.

Goldwater said that to deal with the problem of poverty:

"I would, if I were in a position to do so, call a conference with participation from all of the states to study this problem of poverty and jobs, to pin down the figures, to survey all the solutions and not seek to impose the federal one."

SIDE GLANCES

"Let's not argue in front of these men, Chester. There'll be plenty of time for that after they put the furniture where I want it!"

## Jack Teagarden, Noted Trombonist, Is Found Dead

NEW ORLEANS (AP) — The jazz trombone of Jack Teagarden—sometimes lazy and lyrical, sometimes brash and brassy—has been silenced.

Teagarden was found dead Wednesday in his motel room, not far from the night clubs of the historic French Quarter where his Dixieland beat set feet tapping so many times. He was 58.

An autopsy was planned today to determine the cause of death.

Teagarden was found face down on the floor. He wore a dress shirt and undershorts.

His last engagement was at the Dream Room, a Bourbon Street nightclub within earshot of his motel room.

The engagement was scheduled to end today, said Walter Noto, co-owner of the Dream Room, "but he took sick on Thursday the 9th."

"About one o'clock in the morning, he said he couldn't play anymore," said Noto. "I didn't know he was still in town. I thought he was going to his home at Pompano Beach Fla., the next day."

Almost entirely self - taught, Teagarden played his trombone with its pulsating rhythms throughout the nation's jazz haunts for the past four decades. He had a style all his own, jazz experts said.

Teagarden, a heavy - set, moon-faced man, was also a band leader and jazz singer of note. His husky singing voice sounded not unlike the bellows of his lazy trombone.

## School Employes Union Re-Elects Officers

All officers were re-elected at the 10th annual meeting of the Columbiana County School Employes Credit Union, Inc. Wednesday night at Elkton School.

Re-elected were Lorin Ruff of East Rochester, president; R. E. Yohst, Salineville, vice president, and Mrs. June K. Ingraham, secretary-treasurer.

Ruff and Mrs. Ingraham were elected to the board of directors; Mrs. Catherine Leatherberry, Highlandtown, to the credit committee, and Paul Young, Guilford, audit committee.

Mrs. Sarah Day of Summitville gave the yearly credit committee report, and John Gruszecki, also of Summitville, presented the audit committee report.

Mrs. Ruff gave the directors report for the year. The treasurer's report was prepared by Mrs. Ingraham.

## KSU Student Dismissals Up One Per Cent

KENT — Academic dismissals showed a one per cent increase at Kent State University at the end of the fall quarter.

University officials reported 524 dismissals, five per cent of the campus student body. A year ago, 388 students representing four per cent of the campus enrollment were dismissed.

Registrar Charles E. Atkinson pointed out that last fall Kent admitted 228 marginal students because campus housing was available.

Winter quarter enrollment reached 10,939 students, an 11 per cent increase over the same period last year. Off - campus enrollments climbed 16 per cent.

## Number of County Wards Unchanged

LISBON — The number of children in care of the county welfare department remained the same in December, according to the monthly report of Robert Bycroft, director.

On Dec. 1, the department had 165 children under its care. It added seven but also dismissed seven as wards.

Beginning Jan. 1 the department had 165 on its rolls — 92 in foster homes, nine in Kyes Receiving Home, 17 with relatives, 30 in adoptive homes, 12 in free homes and five in institutions.

A word from THERON at the Country Store

There is a fellow from across the state line in Pa. who wants to hold dancing classes in our room here above the Country Store.

He teaches this new style of square dancing. He brought his outfit up here the other day and gave us a demonstration. It sounded real good.

These classes are to be held each Thursday evening. There will be a small charge to those who want to attend.

I don't know just when he will start but it should be very soon.
